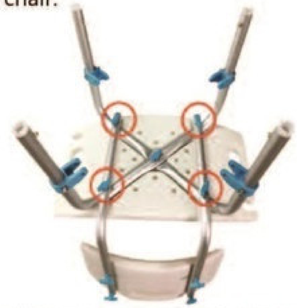
Assembly Instruction

Note:
Blue EVA pad are not pasted on the seat and backrest panels when shipped, you can choose to paste them on or not depending on your requirement. If you need EVA pads pasted on, we suggest you paste them at last. Please pay attention to the drain holes on the seat panel and handle-hole when pasting, try to make the EVA pads fit the seat and backrest panels as much as possible.

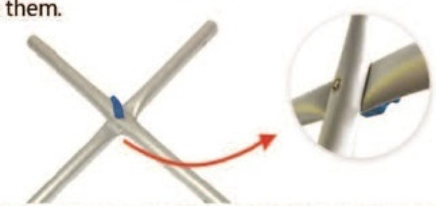
1. Remove contents from carton.
2. Turn seat panel up-side-down. Place the Frame Tubing 1 marked with a "1" into the groove on the bottom of the seat. Place the Frame Tubing 2 marked with a "2" on top of Tubing 1 and secure both in place by inserting the medium blue wing knob screw (with 1 arc facing down wave washer) through the middle hole as shown below.

3. Assemble backrest by taking the "L" shaped backrest support tubing and securing them to the backrest using the medium blue wing knob screws (each with 1 arc facing down wave washer) as shown below.

4. Attach backrest to the seat by aligning holes on "L" shaped frame supports with the holes on the leg sections. Secure in place using the long blue wing knob screws (each with 1 arc facing down wave washer) , making sure to pay attention to the "rear" of the seat marked on the bottom of the chair.



5. Take the two leg cross-braces and place one on top of the other with the grooves properly aligned. Insert the short blue wing knob screw (with 1 arc facing down wave washer) through the middle hole as shown below and secure them.



6. Position the cross-brace assembly in between the four legs and align the cross-brace screw holes with the cross-brace bracket screw holes. Insert a normal screw into each of the 4 screw holes and secure with a shim and nut.

NOTE: When inserting the wing knob screw into the middle of the cross-braces, and inserting the normal screws into each end of the brace, do not sccure them at first until all these 5 screws are aligned into the holes.

7. Insert legs into leg frames by depressing push pins, sliding legs over the receptacle and setting to desired height. Make sure all the legs are set to the same height.

Additional Precautions

1. Inspect all parts for shipping damage before assembly. If there is shipping damage - DO NOT USE. Contact us for further instructions.
2. Make certain that the height adjusting snap buttons fully protrude through the same respective hole of each leg extension. This will ensure that the leg extensions are securely locked in position and an even height is achieved.
3. Ensure wing knob screws, carriage bolts and butterfly nuts are tightened.
4. Check the rubber tips on the leg extensions for rips, wear or if they are missing. Immediately replace any or all if any of these imperfections exist.
5. All four leg extensions with rubber tips MUST touch the floor simultaneously at all times.
6. When used in a tub, make certain the rubber tips are not touching the sides of the tub wall.
7. DO NOT stand on chair.

NOTE: To maintain the beauty of the original finish, clean with mild soap and rinse with warm water. Wipe bath seat dry after each use.
