

FlexiGrip – Tubular Elastic Support Bandage

Please read the following instructions carefully and completely before use. Correct application is required to ensure proper function of the device.

Intended for single patient use.

WARNING: If your pain increases or persists or you experience any unusual reactions while using this product, consult your healthcare provider immediately.

APPLICATION INSTRUCTIONS

1. Cut a length of FlexiGrip that corresponds to the area that will be covered.
2. Draw the bandage evenly over the limb as a sleeve.

NOTE: If more compression is recommended, cut double the length and fold material back over the area as a second layer.
