Captive Technologies Station Master You Tube

*The Station Master kit provides everything required to pipe a home with 4 quick connect oxygen outlets wherever they are needed.*

- Compatible with all popular O2 concentrators and liquid systems
- Remote outlet stations can be up to 100' away from oxygen system
- Fluidic flow controller automatically sends O2 flow to outlet in use
- Pneumatically powered - no electricity required
- Patient moves freely between outlet stations with a quick disconnect cannula cannula that is engaged & disengaged with a simple push action
- A common household scissors is the only tool required to install

***What buyers have to say about Station Master***

*Just installed your stationmaster and love it! I would like to purchase two more brass couplings that attach to a cannula.*

*Kim F Roseville, CA*

*I would buy this product again in a heartbeat. "Did everything I expected; works very well.*

*Jim R Broomfield, CO*

*This product is of the highest quality. If there was a six star rating I would give it to this product.*

*Lloyd Chicago, IL*

*Love this product; it is reasonable priced and the Installation was not that difficult. Made it safer to move around my home.*

*Sonny Spring Hill, FL*
