## Features of ObboMed's multi-layered mattress:

- Designed to minimize friction and shearing of the skin
- Vapor permeable to facilitate moisture removal into the airflow away from the mattress
- Perspiration vacates through the mattress cover surface and/or the patient's bed boundary
- Antimicrobial, Liquid resistant, Fireproof
- Latex, lead, and mercury-free
- Below the cover layer, vapor flows out with the Low Air Loss Feature to lower humidity under the patient while simultaneously transferring away moisture and heat
- Air cells are composed of a combination of thermoplastic polyurethane and nylon (TPU) and airtight with high-frequency, heat sealing and are liquid proof and machine washable

Top Cover with Quilted Underside

15° Self-Rotation By Cone-Shaped Air Cells\*  
Dynamic Low Air Loss up to 23 LPM

## Patented UltraAir™ Features

These models offer the following patented features from the OB-2680 model, along with 2 additional features:

### Bedpan

### Inflatable Guardrails

### 15° Self-lateral Rotation

### 15°/25°/40° Multiple Rotation Angles

-PLUS-

**Warmer:** Soothing and relaxing heat is distributed along the patient's back directly above the alternating air cells. This reliable source of warmth helps support the immune system and may improve circulation.

**Massager:** These models feature 7 vibration massagers operated by a microprocessor to support 8 massage modes. Subtle to deep massages can ease pain, reduce tension, increase metabolism, or support blood flow and reduce muscle fatigue.
