

THE ADVANCED STANDING AND RAISING AID

Sara Plus

Sara® Plus is an ergonomic standing and raising aid that mobilizes patients/residents during everyday activities such as transfers and toileting.

However, *Sara Plus* offers something extra. It extends the mobility-activating benefits of the standing and raising aid to more patients/residents than ever before. The key is the extra resident support given by the Comfort Circle, which is comprised of the Arc-rest and a sling selected for individual needs.

With its unique features, *Sara Plus* increases and extends the benefits that can be achieved by using a standing and raising aid, and will contribute to improving not only the quality of care, but also the quality of patients'/residents' everyday lives.

Activating mobility during transfers and enhancing mobility through exercises

Single caregiver

A single caregiver can manage transfers safely and efficiently.

Exercising

Enables stepping and walking exercises, which enhance mobility benefits.

PRODUCT INFORMATION

Maximum safe working load	420 lbs (190 kg)
Weight with scale	209 lbs (95 kg)
Minimum lifting height	35 5/8" (906 mm)
Maximum lifting height	58 7/8" (1,497 mm)
External width legs closed	25 3/8" (646 mm)
Internal width legs open	39 1/2" (1,002 mm)

1 Arc-rest

The Arc-rest offers excellent support and promotes a sense of security.

2 Scale

The optional integrated scale saves time by weighing the patient/resident during a transfer.

3 Opened legs

For transfers, the powered chassis can be opened for optimum access.

4 Footplate

The footplate provides safety and stability, while the pro-active pad allows natural flexion of the ankle.

5 Dual controls

Handset and/or mast panel controls available. The caregiver can choose the most convenient control according to the care situation.

6 Commode seat

Detachable commode seat and holder. Allows patient/resident to be transported in a seated position and/or to use the commode by the side of the bed.

At Arjo, we are committed to improving the everyday lives of people affected by reduced mobility and age-related health challenges. With products and solutions that ensure ergonomic patient handling, personal hygiene, disinfection, diagnostics, and the effective prevention of pressure ulcers and venous thromboembolism, we help professionals across care environments to continually raise the standard of safe and dignified care. Everything we do, we do with people in mind. www.arjo.com
