

TRAINING PLATFORM™

ITEM # F-250TTP

The Toddler Training Platform was designed to provide a sense of security for young swimmers by raising the pool floor up. By allowing young children to stand and see the pool floor, their fear of deep water can be overcome allowing them to concentrate on the task of learning to swim.

FEATURES

- Durable, light weight PVC frame construction
- Stainless steel hardware
- **New, stronger Polypropylene Deck** allows for easier draining and also has built in UV inhibitors to protect it from ultraviolet rays
- Multiple units can be joined to create larger platforms for larger classes
- Adjustable height legs from 16" to 20" (41 to 50cm) for various depth pools
- Removable hand rails to allow free movement to adjoining platforms
- Weighted legs prevent unit from floating
- Non-skid rubber feet to prevent platform from moving on the pool floor
- One year warranty

OPTIONS

- **Additional side rail** Item #F-210PSR
- **Extendable legs for 18" to 24" height (45cm to 60cm)** Item #F-220EL
