

REF MDS272202KIT

ACCU-THERM[®] ANKLE WRAP

APPLICATION INSTRUCTIONS

1. Place gel pack into freezer or microwave to achieve desired level of cold or heat. Insert gel pack into the pocket of the wrap.
2. Lay out wrap on flat surface.
3. Place injured ankle over the elastic strap with heel below the gel pad.
4. Wrap and fasten the strap around the ankle.
5. Readjust strap as desired for secure comfort and even distribution of heat or cold.

WARNING: DO NOT Apply a frozen or heated pack directly onto the skin.
