

Bariatric Skin Protection Cushions

Three layers provide pressure distribution and weight equalization to meet the unique demands of the bariatric patient:

1. Medium density foam base
2. Non-aqueous specialized visco-elastic gel core layer reduces tissue interface pressure at critical points
 - Proprietary gel is a flexible solid that will not leak
 - Gel is placed at three pressure zones
3. Visco elastic memory foam topper for superior comfort and pressure relief
Positions the user with a moderate slope from front to back

Cover features

- Fluid-proof stretch top cover, reduces shear/friction
- Antimicrobial
- Flame retardant
- Removable and washable
- Non-skid base

4" Cushion

Strap to secure cushion firmly to the chair

650 lb maximum weight capacity

18-month limited warranty

Designed to meet the requirements of HCPCS Code: E2604.
