About Maxi Pro

Maxi Pro is a digital conversation amplifier that brings out the words so you can hear them loudly and clearly. Use Maxi to enhance the speech around the table, when you talk on the mobile phone or when you watch TV.

Getting started

Step 1: Charge Maxi

- 1 Connect the charging cable to the power adapter (13) and to the charger jack (1) marked in yellow.
- 2 Fit the mains plug (14) to the power adapter (13) and check that it is properly locked before connecting it to the power outlet.
- 3 The battery indicator (8) blinks in green during charging. After about three hours it emits a steady green light to show that that Maxi is fully charged.

Step 2: Connect Maxi

Connect the supplied headphones, earphones, headset, earset or neck loop to the Maxi headphone jack (12) marked in green.

Step 3: Start Maxi

Press the On/Off button (3) for about one second to start Maxi. The microphone indicator (2) lights up in green and the current volume is shown by the volume/tone indicator (5) for three seconds.

To switch Maxi off, press and hold the On/Off button (3) for about three seconds until all indicators go out.

Using Maxi to clarify speech

Maxi is equipped with a built in omni-directional microphone (9) that enhances speech. Place Maxi on a table close to the person talking, hold it in your hand or attach it to your clothes using the clip.

Adjusting the volume

Press **+** on the volume controls (6) to increase the volume and **-** to decrease it. The microphone volume can be adjusted in 9 steps and the TV and mobile phone volume in 15 steps. The level is shown in the volume/ tone indicator (5).

Note: Every time you turn on Maxi, the volume is set to low to avoid unpleasant sound levels.

Adjusting the tone

Press the **^** on the tone controls (7) to increase the treble and the **v** to decrease it. The treble can be adjusted in 5 steps and is visible in the volume/ tone indicator (5).

Note: Increasing the treble makes the S, F and T sounds more pronounced and the words easier to make out.
