### BASIN SETS

#### Labor and Delivery Basin Set

- All the basic supplies needed for a vaginal delivery
- Can be customized to meet your L & D needs
- Quality products grouped for convenience and cost-effectiveness
- A variety of Standard Kits available
- Latex safe

Product No.	Description	Quantity
89-5012	Standard L & D Set	Sterile 8/Cs

#### Kit includes:

- (1) ClearGrip™ Bulb Syringe
- (1) Placenta Basin & Lid
- (1) Vaginal Packing, 4" x 36"
- (1) Baby Blanket
- (1) Protective Plastic Set-up Cover, 44" x 82"
- (1) Umbilical Cord Clamp
- (1) Back Table Cover, 44" x 72"
- (1) Gauze, 4" x 4", 12-Ply, X-Ray

#### Vaginal Delivery Latex Safe Convenience Kit

- All supplies needed for a vaginal delivery
- Saves vital time for quick set-up
- Latex safe to minimize reactions in patients and clinicians
- A variety of Standard Kits available
- All kits can be customized for your convenience

(1) Mayo Tray	(1) Dressing, Covaderm, 4" x 6"	
(1) Needle, 18-Gauge x 1½	(1) Mayo Stand Cover	
(5) O.R. Towels, Blue	(20) Lap Sponges, 18" x 18" w/Loop	
(1) Placenta Basin Lid	(10) Gauze Pads, 4" x 4", 16-Ply, X-Ray	

# Delivering Quality From the Very Beginning

## LABOR FACILITATION

DeRoyal is always on the forefront of design and innovation, even with a device as seemingly simple as an amnio hook. The DeRoyal Amnio Hook incorporates all of the traditional features of a quality amnio hook, such as the “crochet-hook” tip, a malleable handle, and new features like the hook-direction reference index markings and an ergonomic grip.

Ergonomic grip ensures a comfortable hold with less slip on the amnio hook, even when wet.

Reference mark identifies the direction the hook is pointed even while inserted.

### Amniotic Membrane Perforator

- Patented\* ergonomic design ensures a good grip for reliable insertion and removal
- Reference mark helps identify the direction the hook is pointed, even while inserted
- Malleable, for easy insertion
- Sharp “crochet-hook” tip ruptures sac easily and effectively
- Latex safe

Product No.	Description	Quantity
72-7100	Sterile	100/Cs
72-7100NS	Non-Sterile	500/Cs

\* U.S. Patents D496,102 and 6,793,662.

## L & D ESSENTIALS

### Placenta Basin & Lid

- Low-profile, snap-tight lid helps prevent tipping or spills during transport, disposal, or storage
- Large 12" x 9" tray allows easy inspection of placenta
- Designed for durability to prevent cracking or breakage
- Etched graduations for more accurate measurements
- Standard rectangular size for convenient placement
- Latex safe

Product No.	Description	Quantity
32-881	Placenta Basin w/o Lid, Sterile	15/Cs
32-1029	Placenta Basin w/Lid, Sterile	10/Cs

### Fetal Monitoring Abdominal Straps

- Made of durable elastic or blue purr foam to withstand extended labor
- Two straps available (with button tabs or slot straps) to accommodate transducers
- Comfortable for patient while keeping transducers in position
- Latex safe

Product No.	Description	Quantity
M1132	Blue Purr Foam Fetal Monitoring Straps w/Slots	1/Cs
M1132-10	Blue Purr Foam Fetal Monitoring Straps w/Slots	10/Cs
M1140	Elastic Fetal Monitoring Straps w/Button Tabs (1 Pink & 1 Blue/Set)	50 Sets/Cs
M1141	Elastic Fetal Monitoring Straps w/Button Tabs (1 Pink & 1 Blue/25 Yd Roll)	2 Rolls/Cs

# Delivering Quality From the Very Beginning

## DELIVERY DRAPING

### Satchel Sheet™

- A floor drape for fluid control
- Improves safety of staff by helping to provide non-slip area
- Prevents tracking of fluids in Delivery Room
- Two layers of absorbent non-woven material with plastic backing
- "Peel and stick" edges secure corners to floor and help prevent slippage
- Pull cord design allows easy disposal
- Available in two convenient sizes to fit any L & D room or suite
- Latex safe

Product No.	Description	Quantity
59-0803NS	Regular, 64" x 100", Non-Sterile	10/Cs
59-0900NS	Mini, 64" x 64", Non-Sterile	10/Cs

1. Place Satchel Sheet at foot of delivery bed, using the adhesive backing to secure to floor.

2. To remove after use, begin pulling cord at corner, lifting from floor.

3. Continue to pull cord, containing fluids as it gathers up.

4. When all fluids are contained, dispose of Satchel Sheet as required by your facility.

# DeRoyal Birthing & Neonatal Products

## DELIVERY DRAPING

### Under Buttocks Drape

- 77" x 18" x 32" drape made with non-woven inserts to cushion back and hips
- Ultra absorbent materials wick away moisture to help keep patient dry and comfortable
- Reduces the number of bed changes
- Latex safe

Product No.	Description	Quantity
59-0806	Sterile	20/Cs
59-0806NS	Non-Sterile	20/Cs

### Supreme™ Under Buttocks Drape

- 32" x 50" pad with pouch area to catch fluids
- One of the most absorbent drapes available for delivery
- Ideal for use in late labor as well as delivery
- Impervious backing and foam insert help prevent fluids from backwashing under patient
- Saves linens and clean up time
- Latex safe

Product No.	Description	Quantity
59-0802	Sterile	10/Cs
59-0802NS	Non-Sterile	10/Cs

# Delivering Quality From the Very Beginning

## DELIVERY DRAPING

### Aqua Pad

- 32" x 28" pad helps prevent fluid from backwashing under patient
- Super-absorbent pad reduces number of bed changes
- Foam inserts allow comfortable positioning under the patient
- Saves linens and clean up time
- Latex safe

Product No.	Description	Quantity
59-0800	Sterile	20/Cs

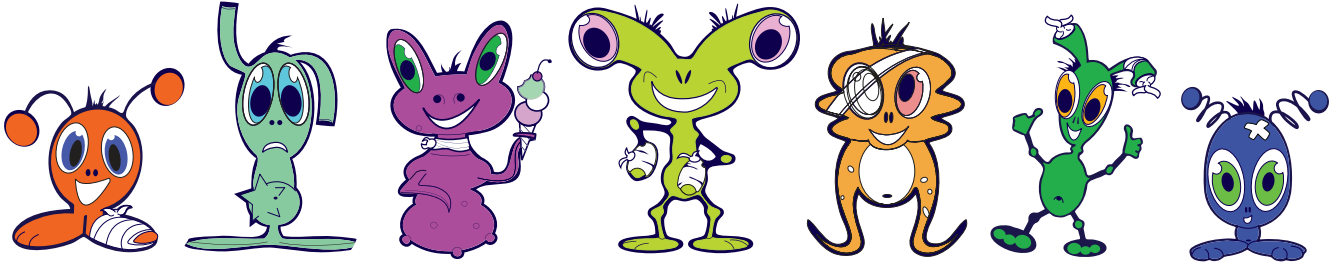

### Leggings with SecureTabs™

- Easy two-step application secures leggings on patient
- Strong adhesive tabs maintain leggings in place during labor activity and positioning
- Soft absorbent material helps protect patient and enhances sterility
- Latex safe

Product No.	Description	Quantity
32-282	Sterile	25/Cs

## COSMIC NEE-NOGGS™ FACIAL PROTECTION PRODUCTS

The Cosmic Nee-Noggs™ have been designed and extensively researched to be pleasing, likable, and fun for children between the ages of three to eight. The staff can wear the facial products and use the Nee-Noggs devices with the children to help them feel more comfortable, less frightened, and a bit more playful.

In addition to the added patient care aspect, the facility can use the Nee-Noggs to promote themselves as the best place to bring children for high quality yet comfortable, non-threatening care.

### FACIAL PROTECTION PRODUCTS

#### Cosmic Nee-Noggs™ FaceShieldZ™

- Convenient, cost-effective way to comply with O.S.H.A. standards
- Use whenever eye, nose, or mouth contamination can be reasonably anticipated
- UltraClear™ technology
- Anti-fog on both sides
- Optically clear, anti-static, anti-glare surface
- Packaged in convenient dispenser box
- Accommodates eyeglasses and face masks
- Latex safe

#### Full Face Shield

Product No.	Description	Quantity
23-001C	Vented Foam w/Hook-and-Loop Strap	50/Cs

#### Half Face Shield

Product No.	Description	Quantity
23-005C	Vented Foam w/Hook-and-Loop Strap	50/Cs

# Delivering Quality From the Very Beginning

## FACIAL PROTECTION PRODUCTS

### Cosmic Nee-Noggs™ SPEyes™ Eye ShieldZ™

- Wrap-around disposable lens for complete protection
- UltraClear™ technology prevents glare, fog, and static
- Frame fits completely against forehead for splash protection from above
- Sealed lens mounting for added fluid protection
- Clip-On/Off design for quick and easy changing
- Colored top strip allows finger-print-free handling
- Latex safe

## NEONATAL PRODUCTS

### UMBILICAL CORD MANAGEMENT

The UmbiliCup™ is a safety engineered cord blood collection device used for sampling cord blood (Rh & Type) without the utilization of an exposed sharp needle, therefore reducing the chance of needlesticks and exposure to blood borne pathogens. It can also be used as a safe and efficient cord transportation device for further lab testing.

#### Collection Method #1: Gravity Flow Method

This method uses gravity flow to collect blood while the umbilical cord is still attached to the placenta. After the cord is clamped in a customary manner, the free end of the cord is allowed to drain into the UmbiliCup until sufficient blood has pooled.

#### Collection Method #2: Double Clamp Method

Using this method, a 5- to 6-inch section of umbilical cord is double clamped, cut and placed inside the UmbiliCup chamber. The clamp is then released and the blood is allowed to pool in the bottom of the chamber.

After blood collection is completed via one of the methods described above, the lid is placed on the UmbiliCup container. Then, an evacuated storage tube is inserted into the sheath protected needle at the bottom of the UmbiliCup. Blood immediately flows into the evacuated chamber and the UmbiliCup is capped on a flat surface.

\*\*\*NIOSH recommends that health care facilities use safer medical devices to protect workers from needlestick and other sharps injuries. Since the passage of the Needlestick Safety and Prevention Act in 2000 and the subsequent revision of the OSHA Bloodborne Pathogen Standard, all health care facilities are required to use safer medical practices. Specifically, health care facilities are mandated to “select, evaluate, and implement safety engineered sharps devices.”

#### UmbiliCup™ Cord Blood Collection Device\*

- User Friendly
- Cost-Effective
- Minimizes Needlestick & Blood Exposure Risk

Product No.	Description	Quantity
72-8000	UmbiliCup, Sterile	24/Cs

\* U.S. Patent 5,342,328.

## UMBILICAL CORD MANAGEMENT

### Umbilical Cord Clamp

- Snap-tight closure
- Will not loosen on tissue
- Clamp tested to over 11 lbs of pull-force
- Latex safe

Product No.	Description	Quantity
6833	Cord Clamp, Sterile	50/Bx, 2 Bxs/Cs*
6833-B	Cord Clamp, Sterile	1000/Cs
6833NS	Cord Clamp, Non-Sterile	1000/Cs

\* Each box of cord clamps includes 2 cutters per case.

### Umbilical Clamp Cutter

- Clamp cutter available for easy cord clamp removal
- Works on most brands of clamps
- Disposable
- Latex safe

Product No.	Description	Quantity
72-7000	Clamp Cutter, Non-Sterile	6/Bx
72-7000B	Clamp Cutter, Non-Sterile	200/Cs

### Umbilical Tape

- Flat, sterile cotton tape for tying off umbilical cord stump during catheterization
- Available in three pre-cut lengths

Product No.	Description	Quantity
30-409	1/4" x 18"	100/Cs
31-251	1/4" x 30"	100/Cs
30-410	1/4" x 45"	100/Cs

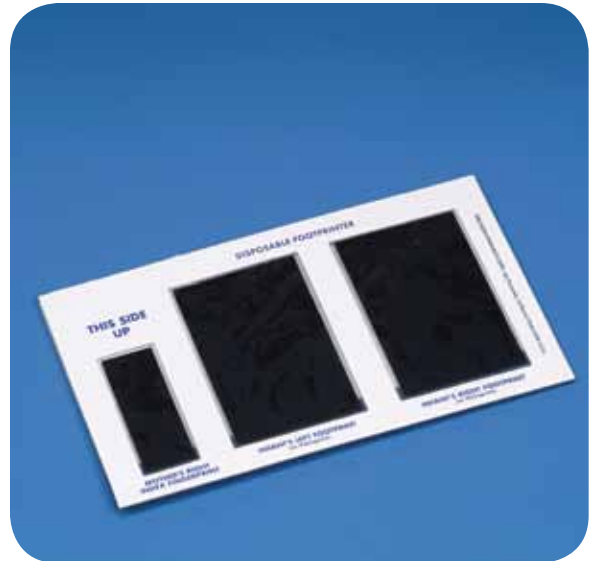

**FOOTPRINTERS**

**Neet Feet™ Footprinter**

- A favorite in delivery rooms
- No ink, no chemicals
- No mess or clean-up time
- Footprinting in one easy step
- Everyone stays neat, clean, and dry
- Special tri-windowed printing surface for both baby's feet and mother's thumb
- No special paper needed
- Latex safe

**Product No.    Quantity**

5950            25/Bx

**Print-A-Foot™ Rigid Footprinter**

- Top-of-the-line stability with convenient handling
- Easy handling for accurate prints
- Rigid plastic designed for maximum stability and pressure
- Comes neatly stacked in dispenser box
- Latex safe

**Product No.    Quantity**

6950            25/Bx, 4 Bxs/Cs

## TEMPERATURE MONITORING

### Neonatal Skin Temperature Sensor Probes

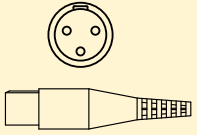

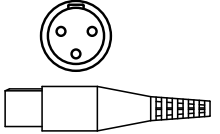

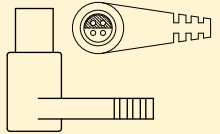

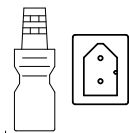

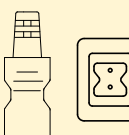

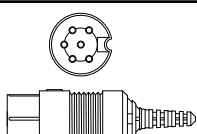

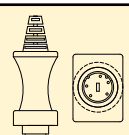

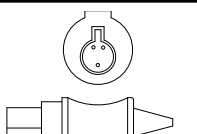

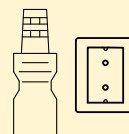

- To monitor the vital signs so crucial to life
- Choice of hydrogel or adhesive pads to adhere to fragile infant skin without irritation
- One-piece direct plug-in design compatible with all warming equipment, no interface cables required
- Unique color coding system ensures proper sensor identification during use and storage
- Reflective sensor cover deflects radiant heat for more accurate readings
- Disposable replacement pads available
- Latex safe

50-5613	Circumcision Kit w/Clamp, 1.3 cm	20 Trays/Cs

**Kit includes:**

- |  |                             |
|--|-----------------------------|
| (1) Circumcision Drape w/1½" Fenestration  | (2) Safety Pins             |
| (1) PVP Paint, 1 oz Pouch  | (10) Gauze, 3" x 3", 12-Ply |
| (1) Petroleum Gauze Dressing   | (1) 2 oz Medicine Cup       |
| (1) PVP Petroleum Jelly Gauze Dressing   | (1) 6" Herwig Probe         |
| (1) O.R. Towel   | (1) 4¾" Adson Forcep        |
| (1) Safety Scalpel, #10 Blade  | (1) 5½" Scissors            |
| (1) 5" Curved Halstead Forceps   |                             |
| (3) 5" Straight Halstead Forceps   |                             |
| (1) Circumcision Disposable Clamp (1.1 cm included in 50-5611 only; 1.3 cm included in 50-5613 only) |                             |

**Disposable Circumcision Clamps**

- Fully disposable stainless steel
- Use of disposable clamps ensures all parts are sized for each other
- Use of new clamp each time eliminates damaged components
- No parts to lose
- Latex safe

Product No.	Description	Quantity
32-1621	Circumcision Clamp, Disposable, 1.1 cm	50/Cs
32-1622	Circumcision Clamp, Disposable, 1.3 cm	50/Cs

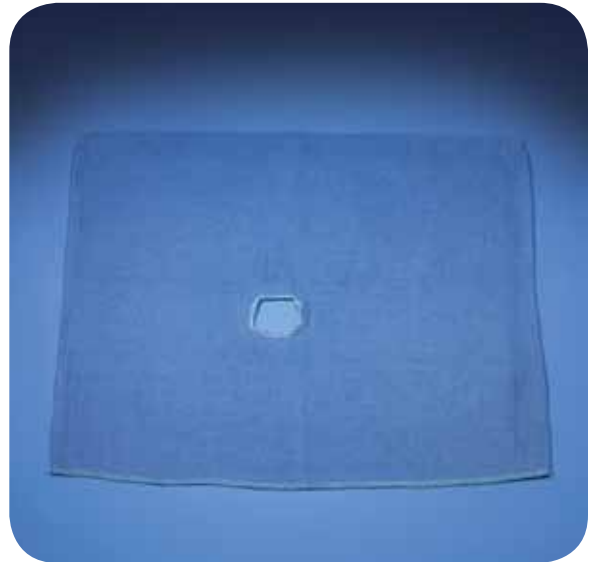

# DeRoyal Birthing & Neonatal Products

## CIRCUMCISION PRODUCTS

### Circumcision Drape

- Fenestration is sewn, so edges will not fray and obstruct procedure
- Eliminates need for multiple towels, saving time and money
- Prewashed so it is soft and lint free
- Made from high quality blue cotton disposable O.R. towel
- Sterile
- Latex safe

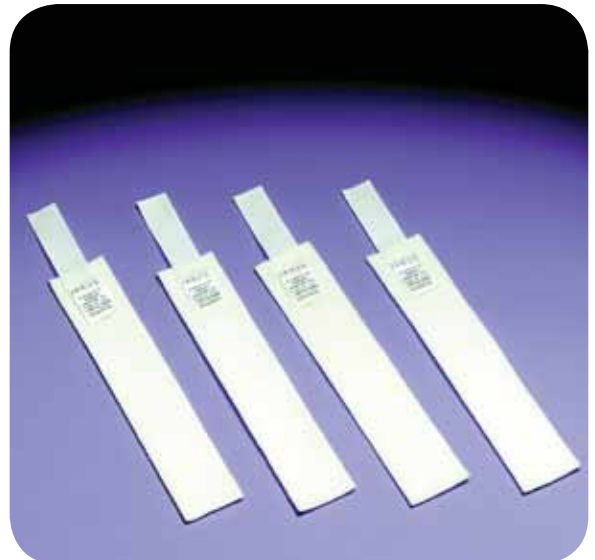

Product No.	Description	Quantity
70-104	17" x 13" w/1½" Center-Cut Fenestration	40/Cs

### Circumcision Straps

- Used to restrain infant's extremities during procedure
- Straps are easily affixed to circumcision or "papoose" boards with hook-and-loop
- Soft hook-and-loop receivable material for secure fit and baby's comfort
- Disposable
- Latex safe

Product No.	Description	Quantity
M1131	Circumcision Straps	20/Cs

# Delivering Quality From the Very Beginning

## WARMING DEVICES

### Infant Heel Warmer

- Reaches a maximum temperature of 104° F/40° C
- Convenient ankle strap holds product in place, so clinician does not have to hold warmer
- Non-toxic liquid warming solution
- Comes in convenient dispenser boxes
- Made with the softest, most pliable material to be gentle to baby's skin
- Quick, easy activation
- Latex safe

Product No.	Description	Quantity
HNICU-100	Infant Heel Warmer	100/Cs

### Infant Transport Mattress

- Prevents loss of neonatal body heat during transport
- Reaches a maximum temperature of 104° F/40° C
- Non-toxic gel and soft material creates a comfortable "nest" for baby
- Helps absorb vibration during transport
- Sturdy bag design prevents leakage during activation or use
- Latex safe

Product No.	Description	Quantity
HNICU-200	Infant Transport Mattress	4/Cs

## WOUND CARE PRODUCTS FOR L & D

DeRoyal is committed to helping you provide comprehensive care to new mothers and newborns with a full line of technologically advanced wound care products to protect, manage, and help heal surgical incisions, I.V. sites, and unexpected non-healing surgical wounds.

### Multidex® Maltodextrin Wound Dressing

- A hydrophilic Maltodextrin NF wound dressing clinically proven to promote the growth of granulation tissue and epithelial proliferation
- Quickly fills wound site, rapidly mixing with exudate to form a protective coating that maintains an ideal moisture balance to protect against dehydration
- Available as a powder for moist and wet wounds or as a gel for dry and minimally draining wounds
- For use on all wound types, including infected hard-to-heal wounds
- Specifically formulated to provide topical nutrients to wound sites, creating a natural healing environment
- Non-toxic and not systemically absorbed
- Controls odor while decreasing purulent exudate
- Penetrates all wound irregularities to fill tunneling and undermining
- Softens necrotic tissue to facilitate debridement
- Primary dressing

#### Multidex Powder

Product No.	Description	Quantity
46-704	6 gram	10/Bx, 60/Cs
46-703	12 gram	5/Bx, 30/Cs
46-702	25 gram	5/Bx, 30/Cs
46-701	45 gram	6/Bx, 36/Cs

#### Multidex Gel

46-711	¼ fl. oz	10/Bx, 30/Cs
46-710	½ fl. oz	10/Bx, 30/Cs
46-712	3 fl. oz	16/Bx, 36/Cs

# Delivering Quality From the Very Beginning

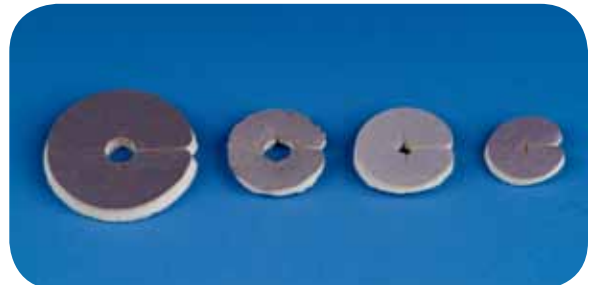

## WOUND CARE FOR L & D

### Algidex™ Ag Silver Alginate Wound Dressing

- Unique combination of silver, alginate, and maltodextrin designed to create the optimal moist wound environment important to healing
- Provides immediate and sustained antimicrobial activity against a broad spectrum of wound pathogens for up to seven days including methicillin resistant Staphylococcus aureus (MRSA), Staphylococcus aureus, Pseudomonas aeruginosa, and E. Coli
- Does not induce bacterial resistance
- Excellent exudate management, helping reduce the risk of peri-wound
- Available as thin sheet, paste, or with integrated foam backing
- Silver is completely and evenly distributed in the ionic state
- Does not require activation or the utilization of sterile distilled water to oxidize the metallic silver colloid to the silver ionic state
- Longer wear-time for fewer dressing changes, resulting in cost savings
- Easy application and removal
- Will not adhere to wound upon removal
- Non-staining, non-irritating
- Latex safe

Product No.	Description	Quantity
46-AG22	2" x 2" Foam Back	5/Bx, 50/Cs
46-AG44	4" x 4" Foam Back	5/Bx, 50/Cs
46-AG45	4" x 5" Foam Back	5/Bx, 50/Cs
46-AG66	6" x 6" Foam Back	5/Bx, 25/Cs
46-AG88	8" x 8" Foam Back	5/Bx, 25/Cs
46-TF22	2" x 2" Thin Sheet	5/Bx, 50/Cs
46-TF44	4" x 4" Thin Sheet	5/Bx, 50/Cs
46-TF48	4" x 8" Thin Sheet	5/Bx, 50/Cs
46-TF66	6" x 6" Thin Sheet	5/Bx, 25/Cs
46-TF88	8" x 8" Thin Sheet	5/Bx, 25/Cs
46-TF816	8" x 16" Thin Sheet	5/Bx, 25/Cs
46-TF16	16" x 16" Thin Sheet	5/Bx, 25/Cs
46-P10	10 cc Tube Paste	10/Bx, 3/Cs
46-IV20	¾" Disc w/2 mm Opening	5/Bx, 50/Cs
46-IV22	1" Disc w/4 mm Opening	5/Bx, 50/Cs
46-IV25	1" Disc w/7 mm Opening	5/Bx, 50/Cs
46-IV32	1" Disc w/4 mm Opening (w/insert)	5/Bx, 50/Cs
46-IV375	1½" Disc w/7 mm Opening	5/Bx, 50/Cs

## WOUND CARE FOR L & D

### Covaderm® Adhesive Wound Dressing

- Non-adherent, general purpose sterile dressing
- Protective, highly absorbent sterile pad
- Non-irritating acrylic adhesive tape
- Comfortable rounded edges and stretchable fabric tape
- Split release liner for easy one-step application
- Conforms securely to body contours
- Available in a variety of sizes
- Primary or secondary dressing

Product No.	Description	Quantity
46-001	4" x 4" w/2½" x 2½" pad	25/Bx, 8 Bxs/Cs
46-002	4" x 6" w/2½" x 4" pad	25/Bx, 8 Bxs/Cs
46-003	4" x 6" w/2" x 5½" pad	25/Bx, 4 Bxs/Cs
46-004	4" x 10" w/2" x 7½" pad	25/Bx, 4 Bxs/Cs
46-005	4" x 14" w/2" x 11" pad	25/Bx, 4 Bxs/Cs

### Covaderm Plus® Adhesive Barrier Wound Dressing

- Multi-layered composite wound dressing
- Maintains moist environment with protections from outside contaminants
- Four layer construction: protective non-adherent contact layer; soft pad for drainage absorption; breathable, semi-occlusive polyurethane barrier film; and conformable adhesive-coated fabric tape
- Helps prevent drainage strike-through
- Minimizes wound trauma
- Provides excellent moisture vapor transmission
- Ideal for many wound types
- Available with radial slit for tube sites
- Primary or secondary dressing

Product No.	Description	Quantity
46-400	2" x 2" w/1" x 1" pad	25/Bx, 4 Bxs/Cs
46-411	2½" x 2½" w/1½" x 1½" pad	10/Bx, 5 Bxs/Cs
46-401	4" x 4" w/2½" x 2½" pad	10/Bx, 5 Bxs/Cs
46-402	6" x 6" w/4" x 4" pad	10/Bx, 5 Bxs/Cs
46-403	6" x 8" w/4" x 6" pad	25/Bx, 8 Bxs/Cs
46-414	4" x 10" w/4" x 6" pad	10/Bx, 5 Bxs/Cs
46-415	4" x 14" w/4" x 6" pad	Bulk, 100/Cs
46-408	4" diameter w/2" radial slit w/2½" diameter pad	Bulk, 100/Cs

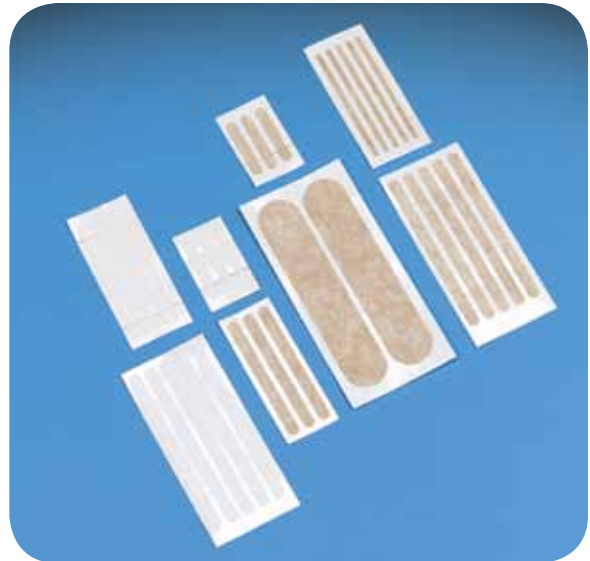

# Delivering Quality From the Very Beginning

## WOUND CARE FOR L & D

### Episeal® Wound Closure Strips

- Wound closure strip with superior non-irritating adhesive coating
- Provides secure attachment without the need for benzoin
- Rounded edges, stays securely in place
- Permits high breathability, reduces blistering
- Unequaled tensile strength, flexibility, and conformability
- Primary dressing

Product No.	Description	Quantity
White Tan		
46-201 46-211	1/8" x 3"	5 Strips/Pkg, 50 Pkgs/Bx, 4 Bxs/Cs
46-202 46-212	1/4" x 3"	3 Strips/Pkg, 50 Pkgs/Bx, 4 Bxs/Cs
46-203 46-213	1/4" x 4"	10 Strips/Pkg, 50 Pkgs/Bx, 4 Bxs/Cs
46-204 46-214	1/2" x 4"	6 Strips/Pkg, 50 Pkgs/Bx, 4 Bxs/Cs
46-205 46-215	1/4" x 1 1/2"	6 Strips/Pkg, 50 Pkgs/Bx, 4 Bxs/Cs
46-206 46-216	1" x 5"	4 Strips/Pkg, 50 Pkgs/Bx, 4 Bxs/Cs

### Transeal® Transparent Wound Dressing

- Transparent, breathable polyurethane wound dressing in six sizes
- Ideal as a primary or secondary dressing for non-draining wounds
- Maintains a proven high moisture vapor transmission rate (MVTR)
- Impermeable to water and bacteria
- Pressure-sensitive adhesive gently acts as a second skin
- Easy, two-step delivery with see-through carrier film ensures proper application
- Carrier can be used as tracing film for documenting wound measurements

Product No.	Description	Quantity
46-301	1 3/4" x 1 3/4"	100/Bx, 2 Bxs/Cs
46-302	2 1/2" x 2 3/4"	100/Bx, 4 Bxs/Cs
46-303	4" x 4 3/4"	50/Bx, 4 Bxs/Cs
46-304	4" x 10"	20/Bx, 4 Bxs/Cs
46-305	6" x 8"	10/Bx, 8 Bxs/Cs
46-306	8" x 12"	10/Bx, 8 Bxs/Cs

## WOUND CARE FOR L & D

### Aquasorb® Hydrogel Wound Dressing

- Non-adherent, water-based gel wafer supported by a fabric scrim and bonded to a semi-permeable polyurethane film
- Offers the consistency of a hydrocolloid with the sensitivity of a hydrogel
- Transparent for easy visual assessment of wound site
- Breathable film enables moisture vapor transmission from gel after drainage is absorbed to help prevent maceration
- Polyurethane film protects entry of pathogens into wound site
- Cool and moist to touch for soothing sensation
- No messy residue
- Easily conforms to hard-to-dress areas and irregular wound sites
- Available without adhesive border, with transparent film border or Covaderm® fabric tape border to eliminate adhesive taping
- Primary or secondary dressing

Product No.	Description	Quantity
46-501	2½" x 2½" Gel	5/Bx, 10 Bxs/Cs
46-502	3¾" x 3¾" Gel	5/Bx, 10 Bxs/Cs
46-503	3¾" x 6" Gel	5/Bx, 10 Bxs/Cs
46-504	7½" x 7½" Gel	5/Bx, 10 Bxs/Cs
46-505	3¾" x 4½" Gel	5/Bx, 10 Bxs/Cs
46-511	2½" x 2½" Gel w/⅝" Border	5/Bx, 5 Bxs/Cs
46-512	3¾" x 4¼" Gel w/1½" Border	5/Bx, 5 Bxs/Cs
46-515	2½" x 2½" Gel w/⅝" Border	5/Bx, 10 Bxs/Cs
46-516	3¾" x 4¼" Gel w/1½" Border	5/Bx, 5 Bxs/Cs

### Oil Emulsion Non-Adhering Wound Dressing

- Sterile, knitted cellulose fabric dressing impregnated with oil emulsion blend
- Non-adherent to wound site
- Non-occlusive, allowing flow of exudate away from wound site into secondary dressing
- Helps maintain a moist wound environment
- Can be cut to shape or size
- Primary dressing

Product No.	Description	Quantity
46-620	3" x 3"	50/Bx, 12 Bxs/Cs
46-621	3" x 8"	24/Bx, 6 Bxs/Cs
46-622	3" x 16"	36/Bx, 6 Bxs/Cs

**WOUND CARE FOR L & D**

**Sofsorb® Absorbent Wound Dressing**

- Highly absorbent, multi-layered one-piece dressing
- Five layer construction: non-adherent wound contact layer; stay-dry liner that permits passage of wound drainage to keep peri-wound skin dry and helps prevent maceration at wound site; center layer that absorbs wound drainage; cellulose layer that wicks drainage horizontally along pad to increase dressing absorption capacity
- May be soaked with saline or topical agents prior to use
- Rounded edges and tapered limb configurations conform to curved and hard-to-dress areas without unnecessary bulk
- Ideal for protecting wound sites from further trauma
- Soft pliability allows for range of motion exercises during recovery
- Primary or secondary dressing

Product No.	Description	Quantity
46-101	4" x 6"	30/Bx, 4 Bxs/Cs
46-102	6" x 9"	20/Bx, 4 Bxs/Cs
46-103	9" x 15"	30/Bx, NA/Cs
46-104	15" x 18"	20/Bx, NA/Cs
46-105	15" x 24"	15/Bx, NA/Cs
46-106	4" x 9"	25/Bx, 4 Bxs/Cs
46-109	3" x 3"	30/Bx, 2 Bxs/Cs

**Xeroform Petrolatum Wound Dressing**

- Sterile, fine mesh gauze impregnated with a blend of 3% Bismuth Tribromophenate (Xeroform) and USP Petrolatum
- Non-adherent to wound site
- Helps maintain a moist wound environment
- 3% Bismuth Tribromophenate (Xeroform) provides deodorizing action
- Primary dressing

Product No.	Description	Quantity
46-610	1" x 8"	50/Bx, 4 Bxs/Cs
46-611	5" x 9"	50/Bx, 4 Bxs/Cs
