Blades & Scalpels

 DeRoyal®
CANICA - SAFETY®

DEROYAL BLADES & SCALPELS PRODUCT OFFERING

DeRoyal offers the broadest selection of stainless steel and carbon steel blades and scalpels in partnership with Swann-Morton®, the worlds largest producer of surgical blades. We also understand that safety is of the utmost importance given the BBP OSHA regulations, so we proudly offer both metal reusable and plastic disposable retractable blade safety scalpels that are both cost effective and user friendly to meet your physicians' requirements.

THE CANICA-SAFETY® REUSABLE RETRACTABLE/EJECTABLE SCALPEL HANDLE FROM DEROYAL

- Allows retraction of the scalpel blade inside the handle before passing to reduce the risk of sharps injuries
- Slider activation allows touchless disposal of used blades into a needle counter box
- Is the only reusable handle that accepts most conventional carbon and stainless steel blades for easy conversion and maximum savings
- Similar in length, weight, and feel to a traditional scalpel handle to provide surgeon comfort and familiarity
- Ambidextrous design for both right- and left-handed surgeons
- Constructed of high-quality anodized aluminum and stainless steel
- Two-piece reusable handle uses standard hospital protocol for sterilization
- Even more cost savings when used with Swann-Morton® and IonFusion™ blades from DeRoyal
- Not made with natural rubber latex
- Two-year warranty
- Patent pending

Notch in handle allows blade identification when retracted

Separates into two pieces for easy cleaning.

Laser-etched scale for measurements.

Similar in size and weight to a standard scalpel handle

DeRoyal's Blades & Scalpels

Canica-Safety® Handles

Product No.	Description	Quantity	D6907 & D6908 Fits Blades Sizes
D6907	#3 Canica-Safety Reusable Handle	5/Cs	6, 10, 10A, 11, 11P,
D6908	#3L Canica-Safety Reusable Handle	5/Cs	15A, 15C, 15T, 16, 40
			D6909 & D6910 Fits Blades Sizes
D6909	#4 Canica-Safety Reusable Handle	5/Cs	18, 19, 20, 21, 22
D6910	#4L Canica-Safety Reusable Handle	5/Cs	

All Canica-Safety® Handles are packaged non-sterile, Not made with natural rubber latex.

Assorted Blades

DeRoyal Blades*	Swann-Morton Carbon Steel	Swann-Morton Stainless Steel	IonFusion "Golden Edge" Stainless Steel
#10 Blade	D6201	D6301	D6221

#23 Blade	D6210	D6310	N/A
#24 Blade	N/A	D6311	N/A

*All DeRoyal Blades are packaged sterile, Not made with natural rubber latex, 200 per case.

Ergonomic, non-slip grip

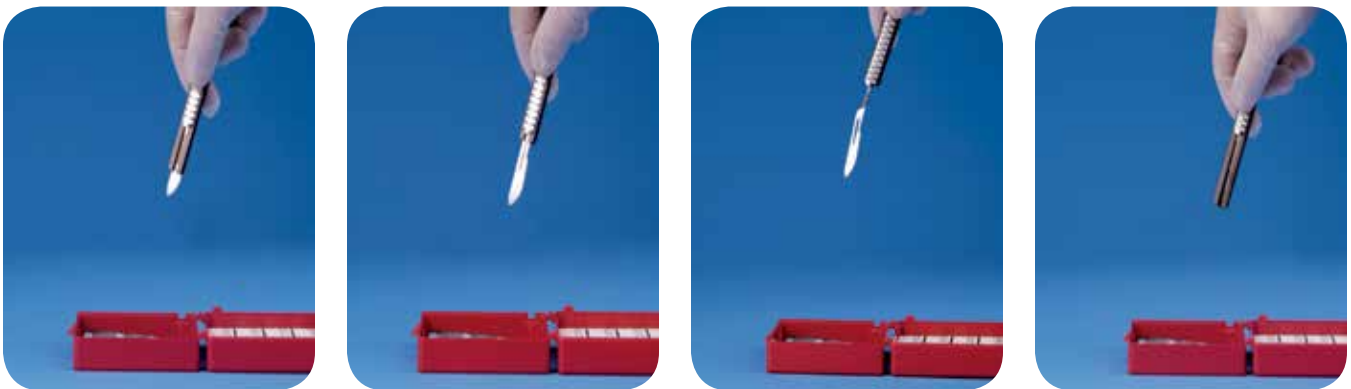

BLADE LOADING, PASSING & REMOVAL USING THE CANICA-SAFETY® HANDLE

Loading and Passing

Blades are installed in the Canica-Safety® Handle using traditional methods, and then retracted into the handle for passing.

Removal

Position loaded Canica-Safety® Handle over needle counter box.

Slide button to release blade.

Blade drops into box for collection and counting.

The Canica-Safety® Handle is ready for a new blade.

DeRoyal's Blades & Scalpels

Canica® Ejectable – Blade #3 Scalpel Handle

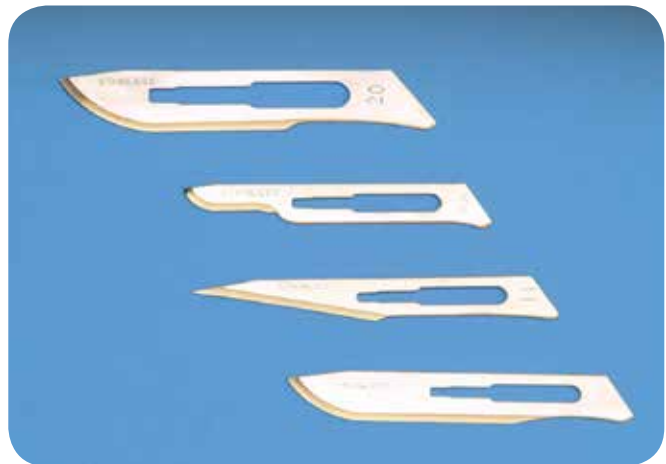

- Accepts #6, #16 blades
- Push-button blade ejection for disposal minimizes risk of sharps injuries and potential occupational exposures to blood borne pathogens
- Pen-style grip etched with fine rings for total rotational finger-tip control for plastics procedures
- Packaged non-sterile
- Not made with natural rubber latex
- U.S. patent pending

Product No.	Description	Size
D6905	Canica Ejectable - Blade #3 Safety Scalpel	1/Cs

IonFusion® Disposable Scalpel Blades

- The result of years of metallurgical research
- A superior quality blade that functions at unprecedented levels
- Stainless steel treated with an ion annealing process to reduce brittleness, creating a highly resilient, atomically sharpened cutting edge
- Signature "champagne gold" edge indicates superior sharpness and edge-retention with increased longevity of use
- One IonFusion™ Surgical Scalpel Blade replaces multiple conventional blades, based on usage data
- Ideal for plastic, orthopedic, and podiatry procedures
- Reduces blade requirements for lower costs, less blade disposal, and decreased operating room time
- Less blade handling for decreased accident potential
- Available in easily recognized, industry-accepted sizes and quantities
- Packaged sterile
- Not made with natural rubber latex

U.S. patent #6,330,750 B1. Other foreign patents have been issued and other U.S. patents are pending.

Product No.	Description	Size
D6221	#10 IonFusion Blade	200/Cs
D6223	#11 IonFusion Blade	200/Cs
D6225	#15 IonFusion Blade	200/Cs
D6226	#20 IonFusion Blade	200/Cs

Getting Straight to the Point

IonFusion® Disposable Safety Scalpels with Retractable Blades

- Only safety scalpels that offer you the IonFusion™ Surgical Blade
- Comes in three popular blade sizes: #10, #11, and #15
- Color coded sliders to denote blade size and a red body to indicate biohazard
- Signature “champagne gold” edge indicating the superior sharpness and edge-retention of IonFusion’s™ technology with its increased longevity of use
- Clinically reviewed and industry listed as a sharps safety device meeting OSHA requirements
- Offers consistent quality, sharpness, and functionality tested to withstand surgical blade breakage while increasing staff safety through positive stop advancement and retraction of the blade
- Ideal for use in a variety of procedures and disciplines, from sensitive plastic surgery to rugged orthopedic work
- Provides full blade visibility at all times to help prevent accidental injury
- Ribbed, slip-resistant finger grips ensure a secure grip in gloved hands, accommodating a variety of hand positions
- Not made with natural rubber latex and available in easily recognized, industry-accepted sizes, and quantities
- U.S. Patents 5,531,754 and 6,254,621

Product No.	Description	Size
D4610	#10 IonFusion Safety Scalpel, Black Slider	50/Cs
D4611	#11 IonFusion Safety Scalpel, Blue Slider	50/Cs
D4615	#15 IonFusion Safety Scalpel, Green Slider	50/Cs

DeRoyal's Blades & Scalpels

Disposable Safety Scalpels With Retractable Blades

- The industry's only patented* safety scalpel that allows a controlled retraction of the entire blade
- Safe and easy to open, with temporary forward locking to prevent accidental retractions
- Permanent lock position for disposal now standard on all versions
- Ribbed, slip-resistant finger grips for a secure hold in gloved hands, accommodating a variety of hand positions
- High-visibility red color denotes a biohazard to ensure proper disposal in sharps container
- Full blade visibility at all times to reduce the chance of accidental injury
- Designed by Dr. Shackelford, a cardiovascular surgeon, in conjunction with a safety engineer
- Clinically reviewed and industry-listed as a sharps safety device, meeting O.S.H.A. requirements
- Packaged sterile
- Not made with natural rubber latex

Product No.	Description	Size
D4506	#6 Safety Scalpel, Purple Slider	50/Cs
D4510	#10 Safety Scalpel, Black Slider	50/Cs

D6053	Fine Surgical Handle, SF3	10/Cs
D6054	Fine Surgical Handle, SF4	10/Cs

DeRoyal's Blades & Scalpels

Scalpel Blade Remover

- Safely removes blade from metal scalpel handle and contains it for disposal in a sharps container
- Place on the mayo stand or back table in open position for fast, safe blade removal
- Hinged plastic sheath securely locks and contains blade
- Works on any and all scalpel blades and handles
- Single use device
- Not made with natural rubber latex

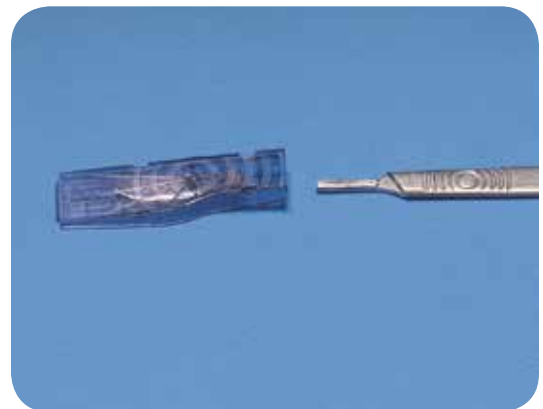

Product No.	Description	Quantity
D6200	Blade Remover, Sterile	50/Cs
D6200NS	Blade Remover, Non-Sterile	100/Cs

Place the blade of the scalpel into the open Blade Remover

Close Blade Remover – halves will click and lock when folded over onto itself. Pull back on the metal handle.

The blade will remain safely inside the locked Remover and the handle is then ready to be used again with a new blade if desired.
