

## Dorsiflexion Support for Foot Drop - Lightweight and Low Profile

NAVIGAIT™ A new alternative for patients with mild foot drop. The amount of dorsiflexion is easily adjusted with the elastic coil to accommodate the users specific needs.

- Supports ankle dorsiflexion during swing phase.
- Elastic coil adjustable and easily replaceable.
- Removable interface.
- The amount of dorsiflexion is adjusted through the position in the lacing and with the velcro attachment on the shin plate.
- Low profile design makes it invisible under slacks.
- Anterior shell can be trimmed with scissors if needed.

## NAVIGAIT™ & 4-FOOT Wrap

### **Intended use and Indications**

NAVIGAIT™ Intended to support the foot when the ability to actively dorsiflex is reduced due to conditions such as stroke, multiple sclerosis, post polio syndrome.

### **Contraindications**

NAVIGAIT™ should not be used by patients who present with spasticity or severe edema.

### **Limitations**

NAVIGAIT™ does not address malpositions of the foot or foot deformities. These should be cared for with shoes and/or orthotics.

The 4-FOOT Wrap makes it possible to wear NaviGAIT™ with sandals, shoes that do not have an anchor point, or barefoot. The wrap has a plastic insert for increased stabilization and non-slip silicon strips to keep it in place.

4-FOOT Wrap is available in 3 sizes. Measure circumference at metatarsal heads for correct size.

Item No.	Description	Size	Anterior section height
28410 0010	NAVIGAIT™	X-Small	23cm / 9"
