

 **Convaid**

Convaid Coaster

Compact-folding, durable, 10°, 20° or 30° adjustable fixed tilt mobility chair

Coaster

The Coaster is the latest addition to our fixed tilt family. This mobility chair levels-up the adjustable fixed tilt market by accomplishing simple adjustment between 10°, 20°, or 30° settings, in a lightweight, compactly folded frame that demonstrates the same longevity seen in all Convaid products. The Coaster also offers an adjustable fixed recline across four different positions, providing the optimal comfort and support for all children. Convaid’s time-tested accessories from the Cruiser and EZRider are still offered as a part of the Coaster while also presenting new, innovative positioning options.

Standard Features

One piece height adjustable push handle

10°, 20° or 30° Adjustable fixed tilt settings

Tension adjustable back straps

Zippered pockets in seat & back

2-Point positioning belt

Saddle bags

80° Front rigging

Foot operated wheel lock

Height adjustable swing-away footplates

11.5" x 2.5" Rear solid quick release tires

Silver powder coated frame

7.5" x 2" Front solid tires

Made in the USA

Compact-folding, durable, adjustable fixed tilt and recline

Adjustable Fixed Tilt and Recline

With the simple replacement of two bolts, you can adjust the fixed tilt setting to 10°, 20°, or 30° to accommodate the user’s needs. For extra positioning, the Coaster offers four fixed recline settings, dependent on the fixed tilt selected.

Zippered Pockets in Seat and Back

The upholstery built in seat and back zippers allows for foam inserts for additional padding and support for the user.

Height and Tension Adjustable Back Positioner

Provides increased lumbar support to encourage proper body positioning and alignment.

Compact Clamshell Folding

Like many commercial strollers, the Coaster can compactly fold into an easily transportable package. The rear wheels are also quick release to offer an even smaller option when loading this chair.

Continued Convaid Durability

Convaid’s reputation-building robustness is once again found in the Coaster, exceeding all industry standards for durability testing.

Coaster Scout

The Coaster Scout all-terrain mobility chair provides families the freedom to truly go anywhere. It comes standard with adjustable fixed seat angle and back angle providing optimal positioning comfort for individuals with mild to moderate trunk positioning needs. The Coaster Scout is designed to withstand rough terrain outdoors with its durable frame and heavy-duty knobby wheels to provide a static grip on more slippery or rocky surfaces. The Coaster Scout also comes with hand-operated riding brakes and the new tension adjustable back positioner for increased safety and support for all adventures.
