

2024 Evaluation Form

DCP Mini

Inseam Range: 10" - 16"

Designed for our smallest riders, the DCP Mini is an upright adaptive tricycle. The DCP Mini can help riders as young as 18 months old all the way up to 5 years old reach therapeutic milestones, all while introducing them to the joys of adaptive biking.

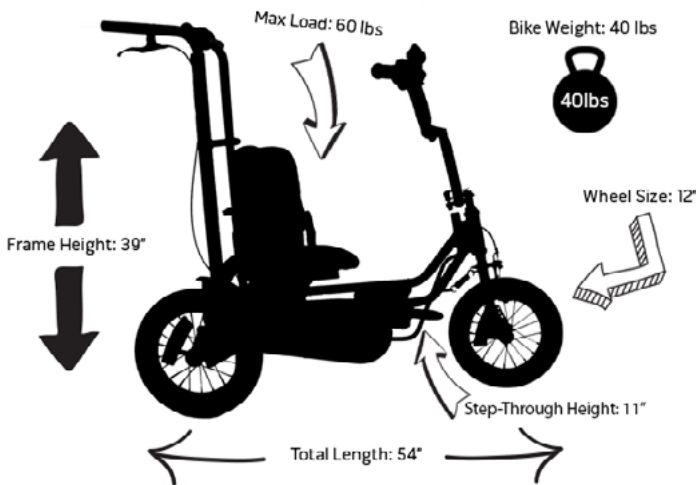

CREATING A CYCLE OF mobility

DCP MINI MODEL SPECIFICATIONS	
Rider Age	18 months - 3.5 years
Max Load (lbs)	60
Bike Weight (lbs)	40
Height	39"
Total Length	54"
Bike Width	29"
Step-Through Height	11"

Measurements Include Rear Steering Handle and High Back Seating

Sizing Guide: Inseam 10" - 16"

Tips For Choosing an Adaptive Bike

1. Measure Inseam

The measurement we use to ensure each rider gets the correct size of adaptive bicycle is called an inseam. To find an inseam, measure the distance between the bottom of the rider's heel to the top of the rider's inner thigh. Make sure the rider's inseam measurement matches the inseam range for the adaptive bicycle.

2. Know Your Accessories

We offer many different accessories to help people of all abilities experience freedom. Look through all of our available accessories to make sure the adaptive bike will work for the rider. More information on all of our accessories is available at: www.freedomconcepts.com/product-lines/adaptive-bikes/accessories/

3. We Do Custom

If none of our current models of adaptive bicycles work for you, we are able to custom build a bicycle that will. Please contact us at 1-800-661-9915 for more information.
