

DRE Torino EXL

Operating Table

Equipment for the way *you* operate

The **DRE Torino EXL** automatic operating table is an excellent choice for use in a variety of operations. A micro touch remote control operates the quiet hydraulic lift system, flexible adjustments of the head, back, and seat plates, and the built-in kidney bridge. The **Torino EXL** features long horizontal sliding, C-arm and x-ray access.

Features

- C-arm and X-ray interface capabilities to meet imaging requirements
- Micro touch remote control with low noise movements
- Flexible adjustments on head plate, back plate, seat plat and built-in kidney bridge
- Quiet and reliable hydraulic lift system
- Stainless steel design for excellent stability
