

## Easytrack Options

There are many variations of the Easytrack system's with 2, 3 and 4 post configurations, thereby providing a solution for almost any setting.

### 2 POST SYSTEM

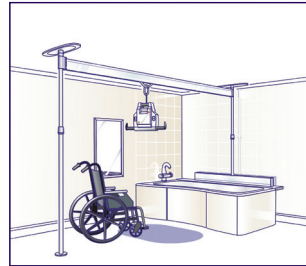

The standard 2 post Easytrack is suited for transfer over a bed or bath in a peninsular setting:

**92000:** 2 post Easytrack

**92002:** 2 post Easytrack with wall bracket

**92001:** 2 post Easytrack with bath bracket

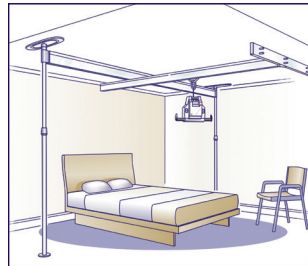

**92003:** 2 post Easytrack without posts

### 3 POST SYSTEM

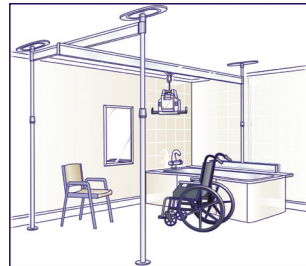

The 3 post Easytrack<sup>®</sup> is suited for transfer over a bed or bath and down a room. This system negates the need for a traditional curved track:

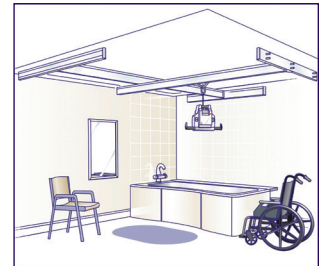

**93000:** 3 post Easytrack

**93002:** 3 post Easytrack with wall bracket

**93001:** 3 post Easytrack with bath bracket

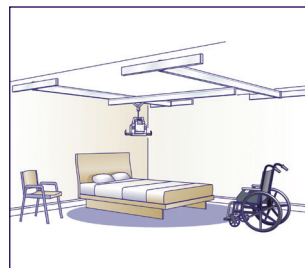

**93003:** 3 post Easytrack without posts

### 4 POST SYSTEM

**94000:** 4 post Easytrack operates like a traditional x-y system covering all 4 corners of a room. System is not telescopic

**94003:** An x-y system without posts and with 4 wall brackets

### 2 POST FREESTANDING

**9720010:** 2 post Freestanding Easytrack
