

# Evacusafe Standard Chair

Every minute matters when it comes to saving lives.

That's why companies are turning to quick-to-deploy, life-saving equipment like the Evacusafe Excel Chair.

Evacusafe Excel chairs are designed specifically to help people with limited or impaired mobility.

Standard Chairs are lightweight and easy to set up and use. With a friction-controlled track for slow and controlled descent, the Standard Chair easily glides down stairs, fire escapes or flat surfaces, with up to 400 pounds on board, no lifting or manual handling required.

Once ground level has been reached, the Standard Chair handles fold away and turn the device into a temporary wheelchair. With a supportive flat seat, armrests and padded headrest the chair offers comfortable seating for extended periods of time.

When not in use, Evacusafe Standard Chair folds flat for hanging. Each chair ships with a set of wall hooks, an "Evacuation Chair" wall sign and a sturdy, long lasting protective cover.

## Excel Evacuation Chair Specifications:

<b>Load Capacity</b>	400 lbs.
<b>Height (folded/open)</b>	44.5"/57"
<b>Depth (folded/open)</b>	6"/28" (max)
