

VERTAMAX™ • EVOTEC™

Prefabricated Spinal

VERTAMAX LSO PDAC APPROVED • L0627 Custom Fitted • L0642 OTS

EVOTEC LSO PDAC APPROVED • L0631 Custom Fitted • L0648 OTS

VertaMax™ and Evotec™ feature dense elastic material which provides significantly more compression than those conventionally used for lumbar supports. These braces provide unparalleled anterior-posterior and abdominal support, perfect anatomic fit, ease of donning and doffing, and soft comfort. Abdominal compression can easily be increased or decreased with the fastening tabs. The adjustable anterior and posterior plastic panels contour and conform to patients of all shapes, sizes and lordotic curves with no heat molding necessary. Your patients will appreciate the streamline design that is virtually undetectable under clothing.

Typical Indications

- Degenerative, Herniated or Bulging Disc
- Spondylolysis
- Spondylolisthesis
- Facet Syndrome
- Spinal Stenosis
- Tumors or Inflammation
- Chronic Back Pain
