Product Description

Mixing music and beauty, the Flower Drum is a stimulating freestanding piece to add to your playground. Detailing a playful drawing of a flower, this is a steel drum that emits a deep tune of any child's creation. With polyethylene petals surrounding the steel drum structure, children will not only be audibly stimulated, but visually as well. Children will feel like Alice in Wonderland as they thump, thump on the botanical piece, interacting with nature and having nature interact back.
