VIVE FOLDING WALKER MOB1005 HCPCS: E0143

The Vive folding walker is a heavy-duty mobility aid designed to be as portable as it is easy to use. It is extremely lightweight and folds up easily with a two-button push release system, making it ideal for travel and transporting in and out of vehicles. It is adjustable in 1" increments to accommodate most heights, and has a sturdy frame capable of supporting up to 300 lbs. All of these great features are supported by our lifetime warranty.

PUSH BUTTON FOLDABLE DESIGN

The two-button release mechanism allows the portable walker to be quickly folded down for convenient travel or storage. The push-button release can be operated with the palm or side of the hand for those with limited dexterity.

COMFORT HAND GRIPS

Comfortably soft, the rubber hand grips are textured for a secure, nonslip grip. The contoured ribbed hand grips provide extra stability while reducing hand pressure and fatigue.

LIGHTWEIGHT AND ADJUSTABLE

The anodized and aluminum frame is durable and lightweight, supporting up to 250 pounds. The walker height adjusts in one-inch increments between 33" to 40" to provide a perfect fit for any individual.

ACCESSORIES INCLUDED

Conveniently carry and store essential items throughout the day in the Vive walker bag that easily attaches to the walker. This product also comes with are upgraded five-inch rubber sport wheels for navigating uneven surfaces with ease.
