Ear Gear Mini Curved

Ear Gear Mini Square

0.75" 1.9cm

Ear Gear Mini Triangle

Installation

The Ear Gear Mini Square is used when there is difficulty removing the earmold or earbud and a severe style of insulation is required. The Ear Gear Mini Square has a larger opening in the top of the sleeve which allows for hearing instruments to be slipped in to the sleeves without removal of the mold.

If the Ear Gear Mini is a corded model, attach the clip to clothing.
