

INSURANCE BILLING

SPIO™ is covered by most insurance providers. *For orders within WA state, please contact [Dynamic Orthotics Services](#) (DOS) for any questions you may have.* A quick phone call or e-mail to them by your clinician will tell you if they can bill your insurance prior to purchasing. Clinicians may also work with a local Orthotist for insurance billing in other states. *Insurance billing orders can only be accepted from clinicians.*

FOR CLINICIANS ONLY

Orthotists and clinicians doing their own billing should contact your local government agency regarding rules and regulations for coding and insurance billing, and contact SPIO for pricing.

BILLING INSURANCE WITHIN THE STATE OF WASHINGTON

A complete order consists of the following:

1. Patient information packet
2. Copies of insurance cards/coupons and
3. Letter of medical necessity.

Insurance Cost: SPIO products are billed to insurance companies with the appropriate L (orthotic) codes at a retail rate, not at wholesale prices listed on the SPIO Price Sheet. Most often, when dealing with wholesale companies, they do not offer billing services, therefore, the family would be paying 100% of the wholesale cost out of pocket, rather than a small percentage of the retail cost when billing through medical insurance. If you bill your insurance, please take into consideration the process time.

POTENTIAL BILLING CODES:

Disclaimer

These L Codes are only recommendations provided as a resource to healthcare professionals. In no way do we guarantee or imply claim reimbursement or coverage. Please contact your local/regional [Durable Medical Equipment \(DME\) Medicare Administrative Contractor \(MAC\)](#) representative for coding questions.

SPIO has provided this information as a resource to assist in identifying appropriate HCPCS L-Codes for our products. SPIO is not responsible for final decisions made regarding codes submitted for our products.

While SPIO will attempt to continually update this information, codes, descriptions and coverage are subject to change. Please see the [Medicare PDAC](#) website for the most current information.
