Medical Compression Socks
15-20mmHg*, 20-30mmHg*, and 30-40mmHg*

#1 physician recommended

Comfort, Health and Style!

Effective leg therapy in an energizing athletic sock

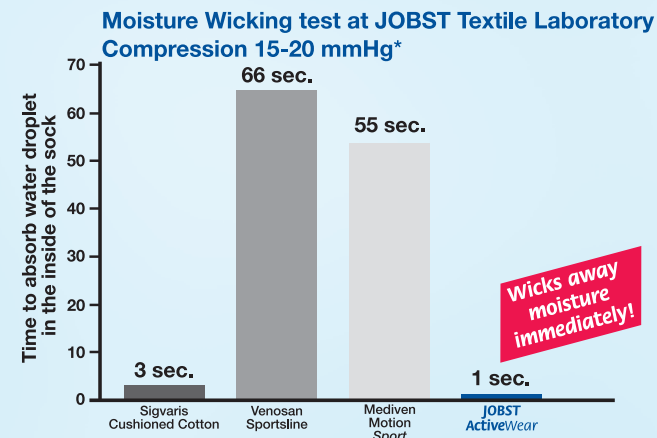

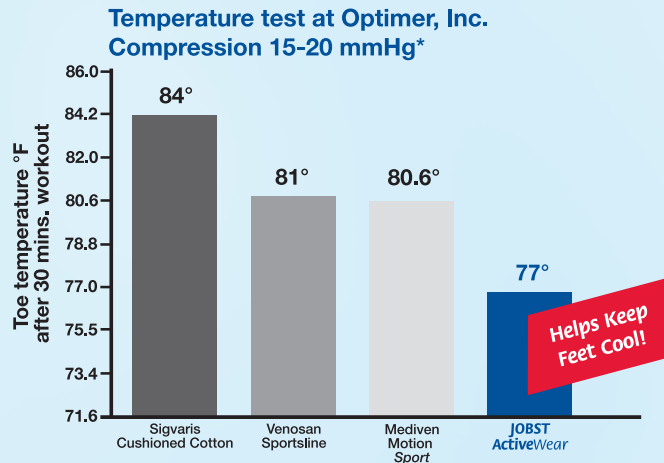

JOBST® ActiveWear

JOBST® ActiveWear offers gradient compression socks that fit active lifestyles. They look and feel just like performance athletic socks! The ideal combination of therapeutic efficacy and Dri-release® yarn for superior moisture management.

Precise gradient compression in three compression classes provides effective relief and management of vascular disorders.

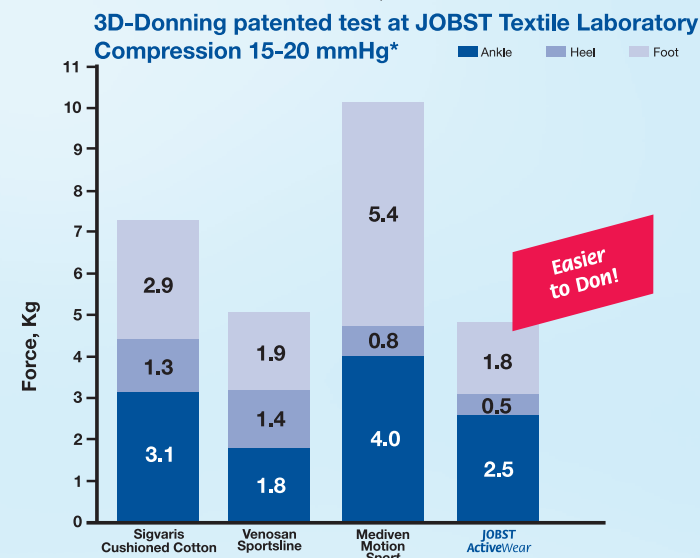

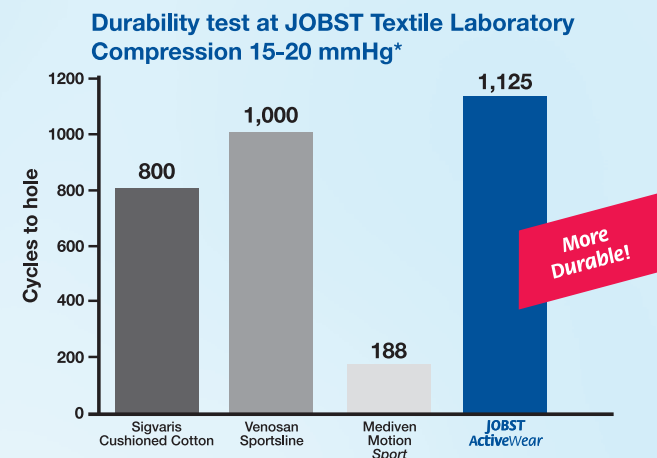

Superior moisture management

- Tests prove that JOBST® ActiveWear is superior in temperature control and moisture management.
- Dri-release®'s unique blend of natural and synthetic fibers helps keep feet dry, cool and comfortable.

More durable

- Tests prove the unique design of state-of-the-art polyester, nylon, cotton and spandex provides comfort and more durability than leading competitors.
- Extra cushioned foot with a reinforced heel and toe provide greater durability.

Easier-to-don

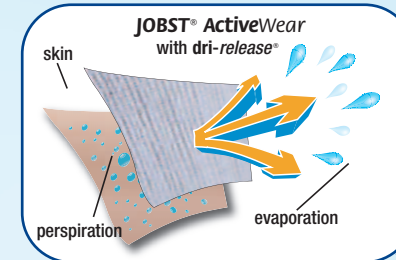

- Tests prove that JOBST® ActiveWear is easier to don at heel and foot than leading competitors.
- Easier donning ensures maximum comfort and compliance.

Laboratory testing results are intended to illustrate a product's performance under controlled conditions. Actual results may vary.**

Knee high – satisfying in every detail...

for superior moisture management

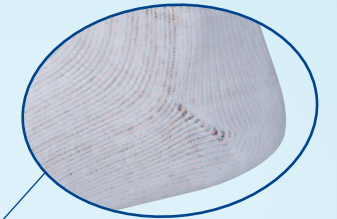

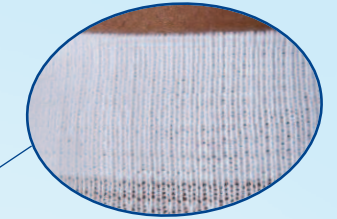

Seamless toe for increased wearing comfort

Unisex Design

All-day comfort knee band keeps socks up without binding or pinching

Reinforced heel resists abrasion for greater durability

360° cushioned foot

JOBST ActiveWear is superior to its competition:

Attribute	Sigvaris® Cushioned Cotton	Venosan® Sportsline	Mediven™ Motion Sport	JOBST® ActiveWear
Toe Seam (picture of the inside of the foot, at the same angle and distance)				 Seamless Toe!
Padding (picture of the inside of the foot, at the same angle and distance)				 360° Padding!
Knee Band (picture of the inside of the foot, at the same angle and distance)				 Wide comfortable knee band!
Toe Temperature °F (after 30 min. workout)	84°	81°	81°	77°
Moisture Wicking (time to absorb water droplet in the inside of the sock)	3 seconds	66 seconds	55 seconds	1 second
Durability (abrasion: cycles to hole in the heel)	800 cycles	1,000 cycles	188 cycles	1,125 cycles
