### COMFORTABLE PLANTAR FASCIITIS SUPPORT TO RELIEVE HEEL PAIN

The Swede-O® Thermal Vent® Plantar DR™ is designed to help relieve pain and discomfort from plantar fasciitis, Achilles tendinitis, and other conditions.

The non-elastic strap pulls the ankle into a slight dorsiflexion position and extends the toes to gently stretch the plantar fascia; passively stretching the calf and Achilles tendon while resting or sleeping to help alleviate morning pain and discomfort. The gentle stretch helps reduce muscle contracture, inflammation, and associated pain. Non-slip safety sole helps prevent slipping.
