

OPTIFOAM[®] GENTLE

ABSORBENT FOAM DRESSINGS WITH SILICONE ADHESIVE

SUPER
ABSORBENT CORE

Every wound deserves gentle care.

OPTIFOAM GENTLE WITH SILICONE ADHESIVE

Super Absorbent with a Gentle Touch

Highly breathable film acts as a waterproof secure

Super absorbent layer absorbs and retains exudate in the dressing minimizing the risk of maceration

Transfer layer between the wicking foam layer and super absorbent layer ensures exudate is transferred to the super absorbent layer as efficiently as possible

Foam layer initiates vertical absorption of exudate away from the wound bed into the transfer and super absorbent layers minimizing the pooling of exudate at the wound face

Silicone adhesive minimizes trauma to the wound and reduces painful removal
