

CHARGING CARTS

16 TABLET/CHROMEBOOK OPEN CHARGING CART LOTM16

Quickly access your tablets and Chromebooks with Luxor's first open charging cart. The mobile cart stores devices while keeping them fully charged and readily available. Charging cords are neatly organized using two clips to guide each cable towards the back shelf, which houses the 16-outlet horizontal power strip. Four casters allow users to smoothly transport the tablets and Chromebooks, and two locking brakes steady the steel frame for stationary use. This one-of-a-kind cart is ideal for any fast-paced environment that needs devices easily accessible, charged, and ready for immediate use.

- Convenient grab-and-go access
- Steel frame offers a clean and modern appearance
- Sloped shelves include padding to safely stow devices
- Keeps charging cords organized with two cord clips per cable
- Easily transports tablets/Chromebooks with four casters and two locking brakes
- 16-outlet power strip includes 450 joule surge protection
- Ships ground in one carton
- Quick assembly; tools included

Cords stay organized with two clips per cable

Four casters and two locking brakes for mobility
