

P.T. Rail™ Floor Installation Options

A floor mounted column that the P.T. Rail™ wall plate (both hinged & fixed models) can mount to. Floor mounted and embedded wall masts available.

Features and Benefits

• Floor Mast.

A floor mounted column used when wall installation of a P.T. Rail™ is not possible or desirable. Height adjustable from 31-36" / 79-91cm from floor to top rail. Available in chrome and white. For stainless steel floor mast, the rail height is 36" / 91cm from floor to top of rail.

• Wall Embedded Floor Mast.

Floor mounted column installs behind the wall during construction. Rail height is 33" / 84 cm from floor to top rail. Zinc coated alloy steel.

• Customized Solutions.

For larger facility orders, P.T. Rail™ wall plates can be designed to accommodate architectural structures such as pre-existing wall plates and hole configurations. Call for details.

White & Chrome Floor Mast Specifications:

Rail Height Range	31-36" / 79-91 cm (from floor to top of rail).
Mast Height	39" / 99cm.
Clamp Plate	3.5" x 15" / 9 x 38 cm.
Floor Plate	4.25" x 6.25" / 11 x 16 cm.
