MOBILE CLEAR ACRYLIC ROOM DIVIDER

Here's a room partition that promotes social distancing in an office, classroom, healthcare facility, retail environment, and more. With a tall, acrylic sneeze guard panel that extends nearly to the floor, it creates a barrier between workspaces or sections off small areas of a room.

A strong, steel frame with lockable casters makes this plastic barrier easy to move when you need to, yet sturdy and stable when you don't. Water-soluble markers enable it to double as a dry-erase whiteboard.

Part sneeze shield. Part collaboration tool. Entirely useful.

Specifications:

- Overall dimensions: 43" W x 24" D x 75" H
- Acrylic shield dimensions: 38.5" W x 64" H
- Panel material: Clear acrylic
- Panel thickness: 5/16"
- Casters: 2" (two with locking brakes)
- Outer frame material: Powder coated steel
- Inner frame material: Aluminum
- Required tools: Allen wrench (included)

Features:

- Allows sectioning of work, retail, clinic, and education spaces without obstructing the view
- Economically priced without compromising quality
- Full-length, vertical orientation
- Clear plastic sneeze guard helps provide separation between employees, customers, patients, or students
- Steel outer frame ensures durability and stability
- Aluminum inner frame prevents warping
- 5/16"-thick acrylic provides strength and impact resistance
- Smooth-rolling locking casters deliver effortless mobility on carpeted and hard floors
- Easy to clean with a microfiber cloth and a solution of mild dish soap and water or commercial plastic cleaners rated safe for use on acrylics.*
- Safe for use with water-soluble dry-erase markers**

IMPORTANT WARNINGS:

***Proper Care and Cleaning of Acrylic – PLEASE READ BEFORE INSTALLING:** Acrylic sheeting can be damaged by harsh solvents and cleaners. Only use cleaning products labeled "commercial plastic cleaners", or mild soap and water to remove dirt and debris. When applying the cleaner, use a non-abrasive lint-free or microfiber cloth that won't scratch the surface. Never use products containing ammonia, acetone, carbon tetrachloride, scouring compounds, alcohol, bleach, aromatics, or gasoline. Chemical glass cleaners (even if they are environmentally friendly, organic, or non-scented) are also not to be used. All solvents need to be wiped clean with fresh water and blotted dry to reduce and prevent water spotting. Failure to adhere to the above guidelines can cause yellowing, cracks, and scratches in acrylic sheeting and may give the surface a frosted appearance. It will also void the Limited Warranty – our Limited Warranty does not apply to any damage caused by or the result of improper cleaning, handling, installation, operation, maintenance, pressure washing, accident, fire, natural disaster, explosion, abuse, vandalism, chlorine, chemicals from sprinkler systems, or other external forces. This warranty shall be null and void if any harmful solvents are used to clean.

****Use of Dry-Erase Markers:** Water-soluble dry-erase markers are safe for use on these acrylic panels. Other forms of dry-erase markers are not recommended because they will be difficult to erase and could possibly leave stains and ghosting.

Mobile Clear Acrylic Room Divider

MD4072A

Perfect for a wide variety of office, retail, and education environments, this versatile item creates separation between spaces, doubles as a whiteboard, and is easy to move when you need to reconfigure a room.
