

Medline Remedy® Specialized Products

Focused care for specific conditions

Remedy **SPECIALIZED** products contain higher levels of active or palliative ingredients designed to help manage specific conditions. Each shares a common goal of optimizing care, efficiency and patient comfort.

 Many Remedy Specialized products contain **Remedy Nutrient Complex** of soothing antioxidants, vitamins, hydration and moisturization.**

Key ingredients found in some Specialized products include:

- Alpha hydroxy acid
- Calamine
- Menthol
- Natural Moisturizing Factor
- Sequestered hydrogen peroxide
- Silicones and dimethicone
- Micronized zinc oxide/petrolatum combinations

Coalition for At-Risk Skin

Remedy Specialized products are formulated with evidence-based recommendations from **CARS**, an independent group of skin care experts convened to develop consensus, standardized industry guidelines.

*The Coalition for At-Risk Skin (CARS) is an independent group of skin care experts assembled to develop consensus, standardized industry guidelines. **Hydrating Serum does not contain Remedy Nutrient Complex.

Medline Remedy® Specialized Products

CLEANSE

No-Rinse Foam Cleanser cleans and conditions hair and skin without stripping natural oils and moisture

- Sulfate-free formula is ideal for removal of difficult barrier pastes and fecal material on sensitive skin
- Clings gently where applied to help reduce clean up and mess

MOISTURIZE

Skin Cream helps restore and protect skin's natural moisture balance.

- Unique moisturizing formula with 1.5% dimethicone helps relieve and repair dry, cracked skin

Hydrating Serum U20 Complex helps promote exfoliation as it soothes rough, dry skin*

- Special 20% urea formula aids hydration and is high in Natural Moisturizing Factor(NMF) ingredients

PREVENT

Silicone Cream provides a breathable, soothing and moisturizing barrier on at-risk skin

- 6% silicone for smooth, breathable barrier
- Rich in moisturizers, humectants and hydration for dry, itchy skin

DriGo-HP™ Wicking Sheets for moisture management, comfort and odor control

- Wicks moisture out of skin flaps
- Patented technology slowly releases sequestered hydrogen peroxide, reducing build-up of bacteria in the fabric and diminishing odors
- Effective for up to 5 days

PROTECT

Zinc Oxide Paste with Menthol for irritated skin exposed to moisture

- Dependable 53% petrolatum protectant with menthol for discomfort and calamine to help dry light exudate

Clear Zinc Oxide Ointment is a transparent petrolatum-based ointment with 1% zinc oxide for touch-free skin monitoring

- Seals out wetness while allowing easy visual monitoring of skin condition

Extra Thick Zinc Oxide Paste for damaged skin exposed to prolonged moisture

- 49% petrolatum and 15% zinc oxide formula clings to and protects very macerated, wet skin
