

MedRISER™ Series

600Lb Patient Lift

- **Electric**— powered electric lift (height and base) will support up to 600lbs and can be used in a variety of lifting situations.
- **6 point spreader** — added width helps enhance comfort to end user while transferring. Pair with a variety of slings for transfers, rehab/gait training, turning and repositioning.
- **Lift Height** — built to have an extremely long lift arm achieving a high lift height which allows it to be utilized for a variety of lifting needs and care settings.
- **GaitTraining**—achieving an extremely high lift height will allow for gait training, ambulation, and various other rehabilitation exercises.
- **OptionalScale**— have the ability to weight patients anywhere and at anytime with a bolt on scale.
- **Ergonomics** -enhanced thicker push handles with bottom "kick" support bar for additional leverage and staff safety.
- **Made in the USA** — an affordable quality lift solution with a commitment to keeping inventory and parts on hand.(no customs or long lead times)
