

MICROBEADS® EYE COMPRESS MOIST HEAT THERAPY PACK

- Helps relieve discomfort from symptoms of dry eye
- Drug free, scent free, soothing moist heat therapy
- Helps improve oil gland function
- Does not contain common allergens or support bacterial growth
- Soft, plush fabric is comfortable against the skin
- Heat in microwave

SOOTHING MOIST HEAT

The hypoallergenic MicroBeads® Eye Pack is a drug free method to help improve Meibomian oil gland function and help decrease evaporative tear loss. Simply warm pack in the microwave for scent free, soothing moist heat; pack will remain warm for 20-30 minutes. MicroBeads adsorb moisture from the air and release it when heated, delivering moist heat to help relieve discomfort from dry eye, aging, digital device use, and more.

GENTLE ON SKIN

The plush fabric is soft to the touch and gentle on the skin. The microbeads in our packs do not support the growth of bacteria or contain common allergens like other herbal or grain based packs.

HOW IT WORKS

The microbeads adsorb moisture from the air and release it when heated. Simply warm pack in the microwave; the pack will maintain therapeutic temperature for 20 minutes. To retain heat longer, wrap a towel around the pack during use. Reusable.

SPECIFICATIONS

Product Selection: MicroBeads® Eye Compress Moist Heat Therapy Pack ACC-523

Product Weight: .5 lbs

Dimensions: 3" x 8"

Materials: Silica beads, polyester

Case Quantity: 12

Case Dimensions: 12" x 12" x 6"

Case Weight: 7 lbs

Latex: This product is not made with natural rubber latex.

Country of Origin: Made in USA

California Residents Only:
