 **Posey**® Universal Twice-As-Tough®,  
Quick-Release Cuffs

Challenging situations can occur anywhere in a healthcare facility. Providing optimal protection for patients and caregivers requires a solution that is safe and effective. Posey products are designed with over 80 years of patient protection in mind.

**PROTECTION**

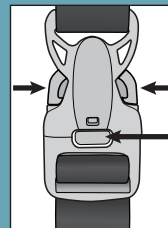

- Twice-as-Tough Cuffs bring together the comfort of soft restraints with the strength of hard restraints.
- Guard against the risk of patient self-releases with a new three-point quick-release buckle design.

**VERSATILITY**

- Apply a single universal solution to accommodate most hospital bed models – including specialty beds – and stretchers/gurneys for greater flexibility.
- Offers sizes to fit a wide variety of patients.

**EASE OF USE**

- Secure cuffs using full-range adjustability – 0.5 to 20 inches from the patient’s limb to the bed attachment.
- Quickly and easily identify sizing based on color.

New three-point quick-release buckle helps avoid chances of patient self-releases.

**PROTECTION.  
VERSATILITY.  
EASE OF USE.**

Single connection strap offers ease of caregiver use and is compatible with most hospital bed models.

New three-point quick-release buckle is close to patient's limb to help eliminate the risk of patient self-release.

Description	Code	Dimensions	Strap Length	Qty
Blue/Regular	<b>2700Q</b>	12"L x 2 ½"W (30 cm x 6 cm)	55" (140cm)	1 pair
