

Recreational Vehicle Lift

Engineered to handle the stress of wind and heavy travel with robust hitch adapter to manage higher forces. Larger tubing in the platform avoids structural fatigue in off-road conditions.

Features & Benefits

- Universal design fits most power chairs and scooters; no modifications required
- Easy, one switch operation
- Self-tensioning Q'Straint retractors and rear wheel cradle
- Manual folding with increased rigidity
- License plate mount included
- 350 lbs. capacity
