

Superstand HLT

The Superstand HLT is engineered to **GROW** with your standing needs.

Tray:
Adjustable in height, angle and depth. Tray can be used in a prone or supine position and a variety of options are available.

Chest support:
Adjustable height, angle and multiple depth options that will support most postural deformities.

Knee support:
Adjustable in height and depth. Accommodates the flexion of the knees and can help gain some range.

Multi-Position Foot System:
This unique system can accommodate for plantar flexion or dorsiflexion contractures.

Base:
4 easy rolling casters make the Superstand HLT easy to move and place.

Foot plates with separate height adjustments to accommodate leg length discrepancies.

See opposite side of page for tray and color options.

3 Sizes available
EI - Size 1 - Size 2

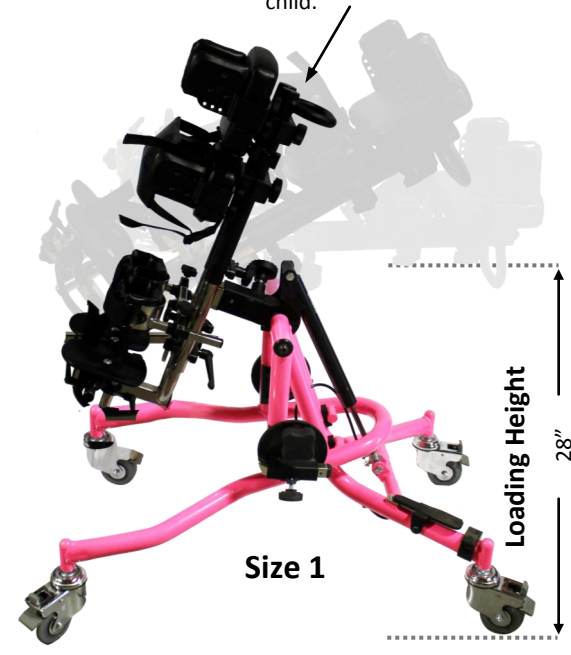

The Superstand HLT lays flat to provide a horizontal loading platform for patient transfer.

Head rest: An adapter can be installed to enable the use of other headrests that are already fitted for the child.

The available supports are designed with a flexible, moisture resistant fabric that is very easy to clean. The vest is also available in an all cotton version that breathes (supports body temperature control.)

| EI Lateral Support Width Adjustment Range 90° 6"-10" 1" offset 4"-8" / 2" offset 3"-6" |
| Size 1 Lateral Support Width Adjustment Range 90° 8"-12" 1" offset 6"-10" / 2" offset 4"-8" |
| Size 2 Lateral Support Width Adjustment Range 90° 10"-14" 1" offset 9"-12" / 2" offset 6"-11" |

The Superstand HLT allows **PRONE, SUPINE** and **VERTICAL** positioning all in one unit. It is versatile, adjustable to the child's condition changes and is also easily upgradeable.

The superstand HLT can be disassembled into three parts to reduce weight for easy transportation without losing or changing adjustments. The base is also foldable, which makes storage easier for vehicles or homes.

| MULTI-POSITION CONFIGURABLE: PRONE, VERTICAL AND SUPINE |
