Luxury Bidet Seats

...SWASH®

1400 Luxury Bidet Seat

Our Most-Advanced Bidet Seat

Brondell's new flagship model has been redesigned inside and out. With a newly refined design, highest-quality components, and cutting-edge technology, the Swash 1400 is our most advanced bidet seat - ever.

Fully Customizable Wash Settings

Programmable User Settings allow up to two people to personalize water temperature, pressure, spray width, and nozzle oscillation to their preferences, and a single-touch Auto Mode runs through a full cycle at the touch of a button.

Replaceable Deodorizer

The easy-to-replace six-month active carbon deodorizer ensures that bad odors and smells are eliminated at the source, leaving your bathroom fresh and clean.

Hidden Water and Power Connections

The hidden "pocket" conceals the water and power connections for the seat, creating a sleek, streamlined look.

Self-Sterilizing Dual Stainless Steel Nozzles

Stainless steel is proven to be more hygienic and longer-lasting than industry-standard plastic. We even took nozzle hygiene to the next level by providing sterilization at the touch of a button.

Warm Air Dryer

The heated-air dryer with adjustable temperature eliminates the use of toilet paper, ensuring you can carry on clean, refreshed, and dry with a touch of the remote.

Welcoming Nightlight

Avoid the shock of glaring lights during a midnight bathroom trip. The new cool blue hue illuminates your toilet bowl.
