

## Introducing **NILS** A Simplified Safety Bed

NILS has a wooden frame and robust mesh to provide protection for children who need boundaries and a low sensory environment. The innovative design requires no padding since the mesh is held away from the wood frame. The mattress on the floor provides a gentle threshold and stability. Two openings offer zipper doors. Available with or without a top for added security. Mattress is included.

- \* Inside dimensions - 78.75" X 35.5"
- \* Outer dimensions with feet - 85.5" X 57"
- \* Overall height - 47.25"
- \* Mattress height from floor - 5"
