

Introducing...

The **NEW**,

DIGITAL ULTRASONIC CLEANER

#6008

*Designed specifically for cleaning
the MadaJet®*

*Excellent for cleaning general
Surgical Instruments.*

*Works great with most
UltraSonic Cleaning Solutions.*

*Includes a Custom Cover, Rack,
& Basket.*

Holds up to 2 MadaJets®

High-Intensity Cleaning

... EVERY TIME!

FEATURES:

- *Digital + Adjustable Heat Control*
- *Digital 99 Minute Timer*
- *Powerful Frequency Control: 28 kHz or 40 kHz*
- *3 Liter Tank*
- *Designed to Fit Any Medical/Dental Laboratory*
- *2-Year Warranty*
- *Size: 27cm x 17cm x 24cm (L x W x H)*

MadaJet

ADVANCED **NEEDLE-FREE** TECHNOLOGY

A needle-free instrument for injecting various medications with **virtually NO PAIN**. It is designed for **patient comfort** and is clinically proven to **reduce the fear & trauma of needle injections**. For healthcare providers, this technique alleviates the everyday complications due to patient apprehension.

The device fires a thin jet stream that penetrates the skin & disperses into subcutaneous tissue. The injections yield **greater physiological effects**, using **smaller volumes** of medication than needles. It minimizes tissue trauma for better suturing & wound management, as well as **virtually eliminating** the possibility of hematomas, local edema, needle-stick injuries, etc. It also provides injection sites with excellent anesthesia before deep needle procedures.

MEDICAL

401

- 4–4.5 mm depth
- Inject through all body orifices
 - Open Wounds
 - Oral & Laryngeal cavities
 - Nasal & Otic tissues
 - Vagina & Cervix
 - Rectum

Colorectal Surgery

- Biopsies
