

# Night Splint Wedge

## Posterior Night Splint

Includes two 1/2 inch EVA wedges.

The Night Splint Wedge is designed to alleviate heel pain associated with plantar fasciitis and achilles tendonitis. It features two 1/2 inch EVA wedges, each with 3° of inclination, that can be removed or added to adjust the desired dorsiflexion of the foot. The natural cotton terry liner absorbs moisture and ensures a cool, comfortable fit and a non-skid sole for minimal ambulation. A large supporting surface provides enough space for optimal comfort.

**DARCO**

Two 1/2 inch EVA wedges each with three degrees of inclination. Can be combined for a total of six degrees of inclination.

Wedges can easily be inserted/removed via the convenient front hook and loop fastener flap.

## Night Splint Wedge Features and Benefits:

- › **Removable wedges** are included to create varying degrees of angle within the foot bed.
- › **Fast and easy** to use with a hook and loop fastener.
- › **Cotton terry liner** is soft, comfortable and absorbent.
- › **Can be worn on the right and left.**
- › Provides a **sustained stretch to the plantar fascia.**

## Night Splint Wedge Indications:

- › Shortening of the plantar fascia
- › Plantar fasciitis
- › Tendinitis of the achilles tendon
- › Prevention of equines deformities
- › Postoperative immobilization
