This is a Universal Restraint System for disabled children. It is approved in accordance with Federal Motor Vehicle Safety Standard 213 for general use in vehicles and it will fit most but not all cars. A correct fit is likely if the vehicle manufacturer has declared in the vehicle handbook that the vehicle is capable of accepting a Universal Restraint System for this age group. Only suitable for use in **vehicles with 3-point** (lap & shoulder) seat belts. This is a seat for children weighing between 22 and 65 lbs., whose height is between 27 and 57 inches and who are over 12 month old in **Harness Mode** or 40 – 110 lbs., and whose height is between 34 and 57 inches in **Booster Mode**. Suitable only for **forward-facing** installation.

- * The footrest adapter 821 & Base plate 89036 must be ordered to use footrest
- ** We recommend using larger crotch pad only in booster mode
- *** To reach max. seat width remove additional hip guide pads from additional seat pad
- **** To reach max. back height remove additional seat pad and foam pad under seat cushion
- ***** To reach max. shoulder height remove additional seat pad and foam pad under seat cushion
