

## TAKE A QUIZ

### Diego test

1. Do you have the feeling that your penis is small?
2. Have you noticed that you now have a curved penis when erect?
3. Have you had penile or prostate surgery?
4. Are you taking medication? For attention deficit or hyperactivity (Adderall), for an enlarged prostate, antidepressants or antipsychotics?
5. Have you noticed a reduction of your penis due to weight gain?
6. Do you have to sit down to urinate? Or is your penis hidden?
7. Have you compared your penis to other men's penises at the gym, showers or beach?
8. Do you hide your penis when you change clothes in the locker room?
9. Have you ever had anxiety or difficulty with erection because you think your penis is small?
10. Do you think that with a larger penis you would have more sexual partners or be more admired?

If you have answered "Yes" to any question from 2 to 4 you may have penis shrinkage; to questions 5 or 6 you may have micropenis or hidden penis; to any question from 7 to 10 you may have small penis syndrome. In previous cases, you should consult to your doctor.

## HOW TO INCREASE PENIS SIZE EFFECTIVELY?

**(ES) ¿CÓMO AUMENTAR EL TAMAÑO DEL PENE DE FORMA EFECTIVA?**

**(FR) COMMENT AUGMENTER EFFICACEMENT LA TAILLE DU PÉNIS?**

**(IT) COME AUMENTARE LE DIMENSIONI DEL PENE IN MODO EFFICACE?**

**(DE) WIE KANN MAN DEN PENIS EFFEKTIV VERGRÖßERN?**

Now you can increase the size of your penis using **Andropenis** alone or as a combined method with injections of PRP (patient's plasma) or testosterone (in micropenis). Ask at this clinic about Penile Traction Therapy (PTT).
