

# PERMANENT BEDS

## Catalog

**Safe Place Permanent beds are for everyday in-home use to keep your special needs loved one safe.**

Designed by **Jonathan Smith Registered Nurse with 12 years of experience** in emergency care of adults and extra training in the care of children, safety is number one.

I am also the **supervising nurse at a school for special needs children** that provides preschool to 12-grade training for special needs individuals.

**So, if you're looking for a safety bed company that has a lot of experience and training on special needs individuals, you found it.**

# PADDING

We are happy to offer a padding kit for our Permanent beds. Padding is added to our custom frames by a local upholstery company with decades of experience. These kits are to be purchased with a Permanent safety bed.

- Padding is 1/2 inch thick covered with commercial Vinyl.
- All edges are rounded on frames to provide extra safety on all bed frames.
- Top rails, inside corners and edge padding is stapled on. After the cover is attached, padding is not accessible.
- Baseboard top edges are attached with Velcro on due to user having access to padding outside the bed.

Bed frames are made one at a time. Please allow 2-4 weeks for production. After production shipping time is 3-5 days.
