Locking Twin Casters (one end of the table)	To easily move your table in the room	63400
Non-USA electric system	call for ordering details	73145
Second Foot Control	Controls all powered movements	61900
Hand Control	Controls all powered movements	69405

STIFF TWIN BEAM CONSTRUCTION

Stiffer than cantilever designs and with fewer moving parts, our design supports all your work with a 17" - 35" height range and a powerful ETL listed motor.

FIRM RESPONSE FOAM

Firm Response foam is designed to deliver a firm yet comfortable surface that maximizes Physical Therapists' ergonomic efficiency during examination and intervention procedures. Additionally, this surface minimizes Manipulation Dry Hits with its super high density, twin layer design. The Firm Response foam enables increased reliability of patient examinations.
