Fitting Guide

1

- Remove the elbow from the mask by pressing the side buttons and pulling the elbow away.
- Pull headgear over your head with both lower headgear straps released.

2

- Adjust both the straps of the upper headgear evenly until the mask is stable.

3

- Bring the lower straps below your ears and loop the headgear into the lower hooks on the frame.

4

- Adjust the lower headgear straps evenly until the mask is stable.
- The fitting should be firm but not uncomfortable.
- Do not over-tighten.

5

- Connect the air tubing from your device to the elbow.
- Attach the elbow to the mask by pressing the side buttons and pushing the elbow into the mask.
- Turn on your device so it blows air.

6

- Undo the fastening tabs on the upper headgear straps.
- Reposition both of the straps evenly, only enough until a seal is achieved, then reattach the fastening tabs.
- Your mask is now ready to use.
