Key 2: COLOR SCHEME

COLOR SCHEME	KEY CODE	KEY INPUT
Red/Black.....	0.....STD	
Black/Black.....	1.....STD	
White/Black.....	2.....STD	

Red/Black

Black/Black

White/Black

Key 3: TORQUE ARM

TORQUE ARM	KEY CODE	KEY INPUT
8" Torque Arm.....	8.....STD	
10" Torque Arm.....	10.....STD	

Key 4: HANDRIM

HANDRIM	KEY CODE	KEY INPUT
Out-Front Natural-Fit.....	N.....\$335	
Out-Front Natural-Fit LT.....	NL.....\$365	
Out-Front SURGE.....	S.....\$425	
Out-Front SURGE LT.....	SL.....\$475	
Q-Grip.....	Q.....\$315	(not available on 22" wheels)
RibGrips.....	G.....\$260	(only available on 24" wheels & in blue, pink, black and red)
Projection-8 (45°).....	P.....\$375	

The **Natural-Fit** has an oval profile that increases gripping surface area by 80%. The optional thumb grip component is not available for use on Rowheels.

The **Surge** has the same oval profile along with a rubber strip along the top surface of the oval for increased friction while leaving the side surface smooth for braking.

Q-Grips are ideal for anyone with limited hand function or anyone that prefers the feel & functionality of a fully-coated handrim. Research shows the Q-Grip to be 59.1% more grippy than a standard vinyl handrim.

RibGrips are ideal for those looking to push their wheelchair with more ease and comfort. The soft rib discs benefit users with poor hand/finger grip.

TIRES	KEY CODE	KEY INPUT
No tire.....	N.....NA	
Schwalbe RightRun (Black/Grey)...R.....	STD	
Schwalbe Marathon Plus (Black)...M.....	\$130	
Shox Solid (Black).....S.....	\$59	
Kenda Nevegal.....X.....	\$78 (not available on 22" & 26" wheels)	

The Schwalbe **RightRun** tires incorporate their most effective SmartGuard puncture protection layer, hand-friendly 2Grip side walls, and attractive two color compound. Robust Black'n Roll tread center compound that is non-marking

The Schwalbe **Marathon Plus** is the benchmark for puncture-proof pneumatic tires on the wheelchair. The all-new version comes with improved rolling resistance along with hand-friendly 2Grip side walls, and the robust Black'n Roll tread center compound.

SHOX Solid Wheelchair Tires are airless so you don't have to worry about punctures and are a firm 110psi equivalent.

The Kenda **Nevegal** is the optimal tire for an assortment of ever-changing terrain. It is highly adaptable and excels under various conditions, from loose rock, tall grass, muddy roots, single track and high speed descents, and many more.

Key 7: WHEEL SIZE

WHEEL SIZE	KEY CODE	KEY INPUT

Description - REV 1, Red/Black, 8" Torque Arm, Natural-Fit, Length 1, Right Run Tire, 24"

REV¹ WHEELCHAIR ADAPTER INFO

In order for REV wheels to function properly, our universal frame clamp latches must be installed on the wheelchair's frame. If the chair to be used has a tubular frame with a diameter between **0.75" (19.05mm) and 1.375" (34.93mm) or is a Quickie Q7**, select "Compatible Frame", otherwise select "Not Compatible" and provide us with the wheelchair make, model and frame dimensions in the "Notes" section below. A decision regarding whether a custom adapter can be designed will be made. An RFQ can then be submitted for the cost of the custom adapter.
