

# RIG SERIES EAGLE IFAK

## New Low Profile IFAK with Rapid Access to your C-A-T® Tourniquet...

The RIG Series Eagle is a new low profile IFAK designed with a protective hood featuring a quick latch release to keep your life-saving equipment protected and allows rapid access for deployment.

Highlighted design advancements include easy-one hand quick release hood latch and zippers, detachable inner shock cord panel that detaches from the IFAK bag and new lightweight/low profile Hapalon Molle attachment system.

### Features:

- Tourniquet attached for quick deployment by banding it to inside of front opening flap
- Protective hood with quick latch release helps protect IFAK components and includes sewn in embroidered medical cross identifier
- Allows attachment both vertically (MOLLE backing) and horizontally (3 in. belt loop)
- Quick pull latch and tab for easy one-handed opening
- Detachable (hook & loop backed) shock-cord inner panel adjusts to secure internal components & is easily removable for rapid access
