

INTENSE WORKOUTS NEED DEEP RELIEF

RUMBLE
ROLLER[®]
GO DEEPER

GO DEEPER[®]

Massage tools that work as intensely as you do.

**RUMBLE
ROLLER[®]**

RumbleRoller / Go Deeper

While regular rollers just compress soft tissue and try to improve circulation, our signature bumps help optimize athletic performance only the way a deep tissue massage could.

- **Deeper:** Penetrates into the deeper layers to target hard to reach knots.
- **Faster:** Kneads and stretches in multiple directions to shorten rolling time.
- **Better:** Easily targets difficult to reach areas around the bones.

It's like having your very own sports massage therapist whenever you need it!

RumbleRoller: The Best Deep Tissue Roller

OUR PATENTED DESIGN REPLICATES THE PRESSURE OF A DEEP TISSUE MASSAGE TO RELEASE TIGHTNESS, REDUCE PAIN AND KEEP THE BODY PERFORMING AT ITS BEST.

- It reduces soreness from the day before and prepares the body.

PERFECT FOR TRAINERS, GYMS OR ON THE ROAD.

- **Tough:** Keeps its shape for life.
- **Sanitary:** Antimicrobial agents help prevent bacteria and fungus growth.
- **Durable:** Sweat proof and dirt repellent surface.

Available in three sizes (Full-size, Midsize, and Compact) and in two densities (Original and Xfirm).

Gator: Our Newest Roller!

THE FIRST AND ONLY ROLLER THAT PROVIDES A CROSS FRICTIONAL MASSAGE TO IMPROVE TISSUE MOBILITY.

- Small diameter to intensify the massage.
- Perfect length to treat the entire body.
- Can also be used as a conventional roller to provide compression.

HOW IT WORKS:

Gator has 954 teeth optimized to enable 2 types of use. Roll normally to apply high compressive forces to your muscles. Or hold Gator stationary and shift your body against it to create a shear force to help pull stuck tissues apart.

Beastie: Go Deeper Into Tough Knots

DEEP TISSUE MESSAGE BALLS DESIGNED TO GO DEEPER, HARDER AND SMARTER.

- Dig in with our high profile bumps to isolate the source of tension, release tightness and provide relief.
- High friction surface keeps the bumps where you need them when shifting the angle or increasing the pressure.
- Optional base elevates the Beasties for deeper penetration.

PERFECT SIZE TO USE ON THE ROAD OR IN THE GYM ENABLING DEEP "TISSUE RELIEF WHEN AND WHERE YOU NEED IT MOST."

Available in Original & Extra Firm.

Multiple Applications and Accessories

Beastie Bar:

Use as a hand tool or snap into the optional bases to mount on the wall or roll on the floor for even more versatility.

Beastie Hook:

Perfect for hard-to-reach areas like your neck, back and shoulders.

Beastie Wall System:

Perfect for any home or professional gym. Double or single tracks allow you to mount your Beastie tools for more control and versatility.

Education

RumbleRoller Foundations Course provides 4 hours of hands-on instruction that teaches you the benefits of self-myofascial release and mobility exercises. You'll learn how to effectively demonstrate and teach RumbleRoller mobilization and mobility exercises to individuals or groups of all fitness levels.

On completion of this course, you'll have everything you need to:

- Explain the Methods and Modifications that most effectively utilize RumbleRoller products.
- Summarize the mechanical and neurophysiological principles of self-myofascial release and mobility exercises.
- Demonstrate how to use a movement screen to prioritize mobility exercises.
- Teach self-myofascial release and mobility exercises to any level client.
- Redeem your proof of attendance for CEC's of different organizations.

Better Mobility, Better Profitability

Your clients love all your HIIT based programming, but soreness and injuries can put a stop to their progress. Integrate RumbleRoller's 15 minute warm up and recovery modules or the 45 minute intensive mobility module into your group exercise schedule to help your clients perform their best and reduce the risk of pain and injury.
