USB Charging
This alarm clock is equipped with a convenient USB charging port on the back panel that allows you to recharge many brands of mobile phones, portable music players, and other handheld devices that are supplied with USB charging cables.
The output rating of the USB charging port is 500mA.

To charge your device, connect the USB charging cable that was supplied with your handled device to the USB charging port (15) on the back panel of this alarm clock.
Observe the charging indicator on your device to confirm that it is charging.
Note: Charging time will vary depending on the charging current that your device requires.
Therefore some devices will take longer to charge than others.

Battery Backup –
To use the battery backup, you can install 2 pieces of AA size (UM-03) alkaline battery in the back of the clock located under the battery cover (14). Please note the LED display will not show during power failure but the clock will still be running and keeping proper time until the power is restored.
NOTE: For the best results it is recommended that the battery be changed every 6-8 months. If the clock is not used for a while, it is recommended to remove the battery to aviod leakage.

DC 5V Power Input –
Attach the DC power supply input to the back of clock labeled DC5V ▬▬ IN (1).
Important: **do not confuse DC input with vibrator input.**
