

VIVE Series A

Mobility Scooter

MOB1053

The Vive Series A Mobility Scooter features an upgraded experience: Rear shock absorbers, thick padded seat, and 8" flat-free tires provide a smooth and comfortable ride. Increased ground clearance of 3.5" allows the scooter to easily pass over obstacles such as door jambs and flooring changes. The upgraded battery gives a long range of up to 15.5 miles per charge. Adjustable speed control adjusts up to 5 miles per hour to get you where you're going fast. Larger overall dimensions provide ample legroom and a weight limit of 300lbs to accommodate most riders. Swivel locking seat allows the rider to comfortably enter and exit from the side of the scooter.

EASILY MANEUVER INDOORS AND OUT

Providing a smooth, comfortable ride, the Vive Deluxe Mobility Scooter is perfect for navigating in your home, at the market and on the go. With a ground clearance of 3.5", the electric scooter easily clears most door jambs and smoothly rolls over flooring changes on four 8.86" flat-free tires.

GO FARTHER ON A SINGLE CHARGE

Our Deluxe Mobility Scooter is powered by a long-lasting, rechargeable battery pack with a range of up to 15.5 miles per charge and a top speed of 5 mph. Your mobility scooter includes a quick connect battery and charging cable.

RIDE IN COMFORT AND STYLE

Our Deluxe Mobility Scooter is designed for comfort, safely supporting up to 300 pounds with a large platform and height-adjustable captain's seat. Comfortably padded, the wide, 16.5" seat and backrest provide gentle cushioning and support. Additionally, the scooter seat is surrounded by two padded armrests that adjust and flip upward for greater convenience when exiting or boarding.

WRAPAROUND DELTA TILLER

Equipped with a wraparound delta tiller and drive levers, the Vive Deluxe Mobility electric scooter's intuitive control panel allows you to set the maximum speed with the variable speed dial and turn on the bright LED headlight as needed when navigating in low-light areas. The tiller display also includes a color-coded battery life indicator for checking the status of the battery at a glance.
