

**Stability, Balance, Proprioception**

# SHUTTLE<sup>®</sup> BALANCE

## Dynamic Platform

Develops necessary proprioception in the elderly to the stabilizers in the elite athlete. Simulates a slip through motion in all horizontal planes. Provides secure footing and supports up to 500 pounds.

## Adjustable Suspension Chains

Adjust the Balance Platform height, degree of stability and tilt sensitivity. Perturbates in both standing and seated positions for therapeutic and sport-specific treatments.

## Safely Train Balance

Convenient bars provide security and increased confidence during all phases of training. Can be used with your favorite balance accessory ie: Foam pad, DynaDisc<sup>®</sup>, & BOSU<sup>®</sup> Ball.
