

## Headboard/Wall Protector

### Purpose

The headboard wall protector is easily attached to the headboard with Velcro® straps and protects the wall from costly repairs resulting from the bed bumping the wall.

### Easy to Use

Place the headboard protector between the bed and wall and attach with the Velcro® straps. The notched out, non-slip surface should face the bed while aligning the notches with the bed hardware.

### Easy Care

The nylon cover can be wiped clean with a spray and wipe cleanser. If disinfected, avoid using chlorine (bleach) chemicals.
